<p>Q5 Provide evidence of the local needs which the funding would address There are two areas of relative disadvantage in Haslemere: the Sicklemill Estate and the High Lane Estate. The former is contained in Super Output Area (SOA) 17C and ranks 15th in Waverley (out of 82) in the 2007 Index of Multiple Deprivation (IMD) and 19th in the Child Well-being Index (CWI) 2009; the IMD rankings for Health, Education, Skills and Training and Income Deprivation Affecting Children are 13th, 15th and 13th</p>	<p>Provide data, e.g. Index of Multiple Deprivation, Joint Strategic Needs Assessment, and details of any local consultation which support your application for this area.</p>

<p>respectively. The High Lane Estate is spread across two SOAs (16C and 16D): 16C ranks at 17th in the CWI and 18th for Income Deprivation Affecting Children. However, it is recognized that disadvantage in Waverley often occurs in very small pockets and an analysis of the 2001 census for the relevant Census Output Areas shows that part of the High Lane Estate ranked third in Waverley in terms of those factors most likely to lead to disadvantage in families with children and young people.</p> <p>We have had 20 young parents attend our group since it started.</p> <p>Chiddingfold has been classified as a hard to reach area and Beacon Hill is an area with barriers to accessing services.</p> <p>We have three young parents who would like to access our group from Chiddingfold, but are unable to due to lack of transport.</p>

The minutes of the December 2009 meeting note that “Members welcomed the report and endorsed the need both for continuing awareness of the pockets of disadvantage within Waverley and for support to sustain the progress made to date, especially in developing an environment in which communities can be strengthened through resident involvement.” While the Committee has concentrated its efforts on the three or four areas of greatest disadvantage in Waverley it has nevertheless continued to note the needs of other neighbourhoods facing challenges throughout the borough, noting the needs of communities in Haslemere on 12 December 2003 (Item 22) and in its 14 December 2007 report.</p>	<p>Demonstrate that the Committee has developed an understanding of the profile of disadvantage locally and of the opportunities for joint working and leadership.</p>
<p>Q14 What has the Local Committee done in the past to support multi-agency activity to respond to the needs of disadvantaged communities ?</p> <p>The Committee has regularly endorsed its commitment to its existing priority areas and reinforced this by many grants from its revenue and capital budgets to support local projects; it has also supported the priority given to strengthening these communities in borough-wide strategic plans and ensured that relevant links are made by County Council services. More generally, the Committee has consistently encouraged services to demonstrate what they have done to address the needs of all communities of place and interest in the borough which experience disadvantage</p>	<p>Describe any projects supported in high-need areas and initiatives which have increased the influence of their residents on local services and opportunities.</p>
