

**OFFICER REPORT TO LOCAL COMMITTEE  
SURREY HEATH**

**DATA OVERVIEW OF ACADEMIC PROGRESS WITHIN  
SURREY HEATH  
14th March 2013**

**KEY ISSUE:**

The purpose of this report is to provide elected members with an overview of education performance across the Borough of Surrey Heath from Early Years to Key Stage 5, for information only.

**SUMMARY:**

The report provides an analysis of performance to include the outcomes of statutory assessments and Ofsted judgements. The report indicates strengths, weaknesses and possible next steps.

**OFFICER RECOMMENDATIONS:**

The Local Committee (Surrey Heath) is asked to note the content within the report for information only purposes.

## 1 INTRODUCTION AND BACKGROUND

- 1.1 In the Early Years Foundation Stage, 81% achieved a good level of development by the end of the Reception year in schools in Surrey Heath. This was above the Surrey average (70%) and well above the national average (64%). This placed Surrey Heath at the top compared to other districts. On an individual school basis there are some schools which are significantly above national and Surrey averages as well as a small minority of schools below. These schools have additional support and intervention to help improve outcomes.
- 1.2 At Key Stage 1 outcomes for reading, writing and mathematics at Level 2B+ were above national and Surrey averages.
- 1.3 At Key Stage 2 outcomes for combined English and Mathematics at Level 4 were 87.3% which was above the Surrey and the national averages. This indicates that between KS1 and KS2 pupils are making greater gains and the attainment gap is closing.
- 1.4 Progress in English at Key Stage 2 was in line with Surrey average but was below the national average and the floor standard (progress pupils make between KS1 and KS2).
- 1.5 Progress in mathematics at Key Stage 2 was in line with the Surrey average but was below the national average and the floor standard.  
At Key Stage 2, one school in Surrey Heath fell below all three floor standards set by the government.
- 1.6 While the above are averages for all the schools in the Borough, outcomes vary from school to school. Each school receives support according to an evaluation of its needs.
- 1.7 At Key Stage 4, Surrey Heath schools performed below the Surrey average; however progress in English was below the national and Surrey averages as well as the floor standard.
- 1.8 At Key Stage 5, the attainment in Surrey Heath schools was below Surrey and national averages.
- 1.9 71.9% of schools in Surrey Heath are deemed good or outstanding. This is below Surrey average but above the national average.
- 1.10 74.5% of pupils attend good or outstanding schools in Surrey Heath which is above the Surrey average.

## 1.11 Context in 2011/12 academic year

## 2 ANALYSIS

### 2.1 Early Years

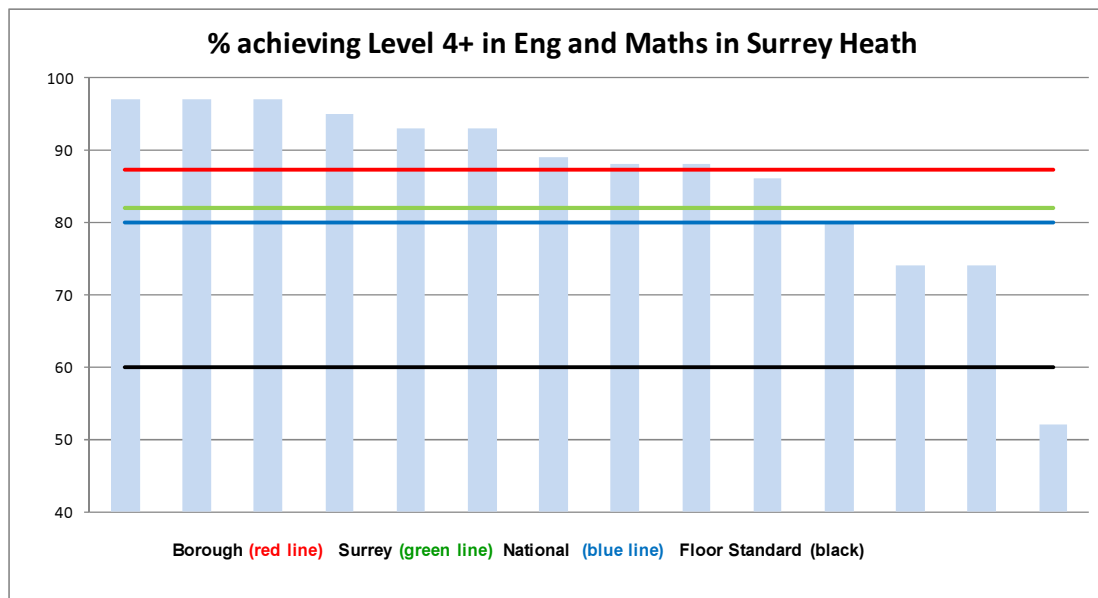

81% of pupils in Surrey Heath achieved more than 78 points (out of a total of 117) including at least 6 points in each of the seven assessment scales of Personal, Social and Emotional Development (PSED) and Communication, Language and Literacy (CLL). Surrey Heath was ranked on top when compared to the other 11 districts and borough councils.

### 2.2 Key Stage 1

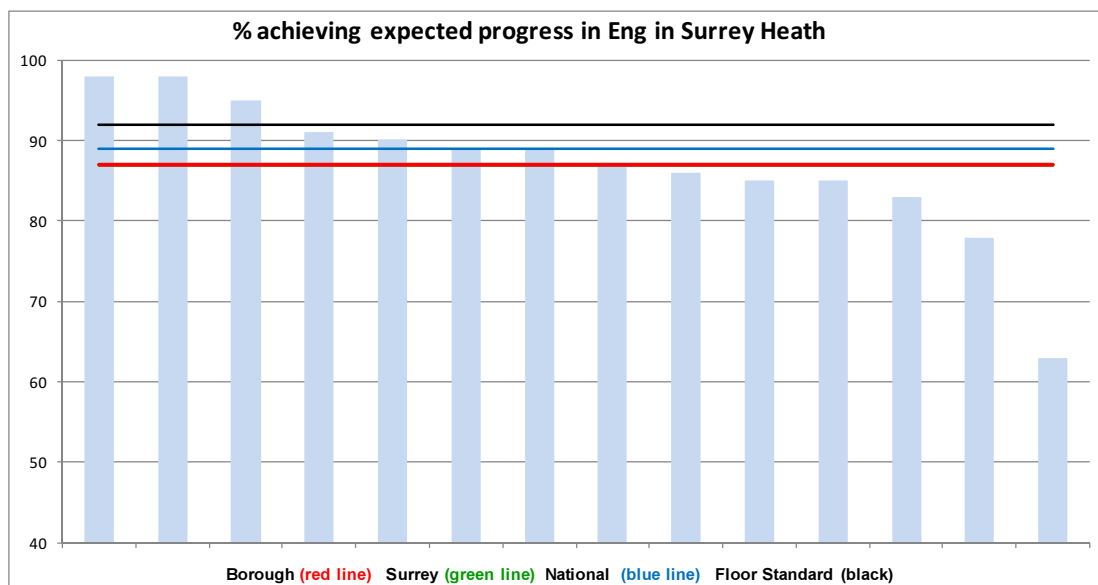

85.5% of pupils in Surrey Heath achieved Level 2B+ in reading, 75.1% in writing and 85.9% in mathematics. Surrey Heath scored the highest in terms of writing amongst the 11 districts and borough councils. All three results were higher than the Surrey average (81.8% reading, 69.5% writing, 82.5% mathematics) and the national average (76% reading, 64% writing, 76% mathematics). Surrey Heath achieved the highest average point score of 17 compared with 16.4 for Surrey and 15.5 national averages.

### 2.3 Key Stage 2

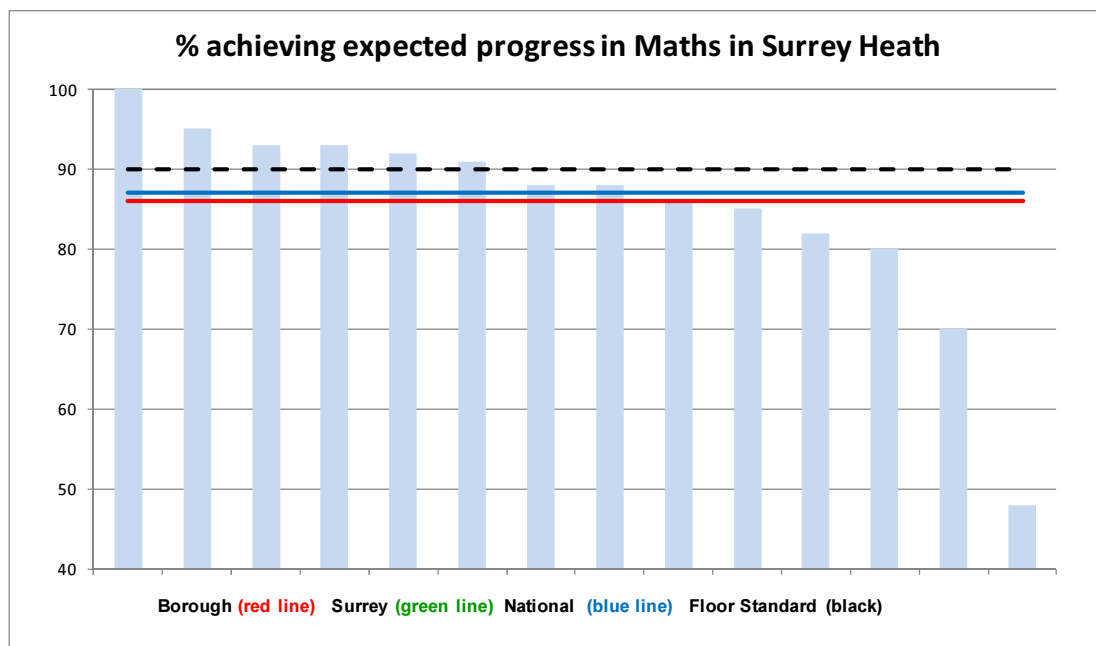

87.3% of pupils in Surrey Heath achieved Level 4 or above in combined English and mathematics compared to the Surrey average of 82%, the national average of 80% and the floor standard of 60%. It scored the highest in this measure amongst the 11 districts and borough councils.

87% of pupils in Surrey Heath achieved expected progress in English which was in line with the Surrey average of 87%, but it was below the national average of 89% and the floor standard of 92%.

86% of pupils in Surrey Heath achieved the expected progress in mathematics which was in line with the Surrey average (86%) but below the national average (87%) and the floor standard of 90%.

Any school failing to reach all three thresholds were designated as below the expected floor standards for 2012. One school in Surrey Heath fell into this category.

## 2.4 Key Stage 2 - prior attainment

The percentage of pupils in Surrey in the low Key Stage 1 attainment band making at least 2 levels of progress in English was 76% compared with 83% of the national average. Amongst the 14 junior and primary schools in Surrey Heath, two were below the national average. The data of the remaining 12 schools was suppressed and hence unavailable for analysis.

The percentage of pupils in Surrey in the low Key Stage 1 attainment band, making at least 2 levels of progress in mathematics was 63% compared with 71% of the national average. Amongst the 14 junior and primary schools in Surrey Heath, one was below and one was equal to or above the national average. The data of the remaining 12 schools was suppressed and hence unavailable for analysis.

## 2.5 Key Stage 2 – pupil premium

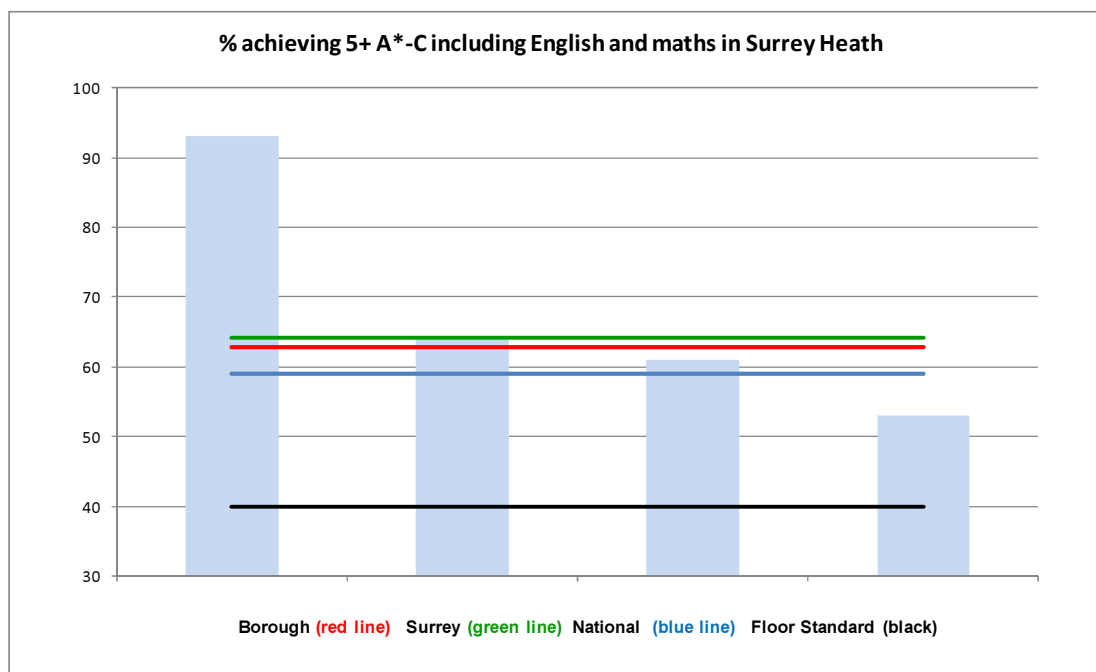

The percentage of disadvantaged pupils in Surrey making at least 2 levels of progress in English was 81% compared with 87% of the national average. It included those pupils who had been eligible for free school meals during the last six years (FSM6) or those continuously looked after for six months. Amongst the 14 junior and primary schools in Surrey

Heath, six were below and two were equal to or above the national average. The data of the remaining six schools was suppressed and hence unavailable for analysis.

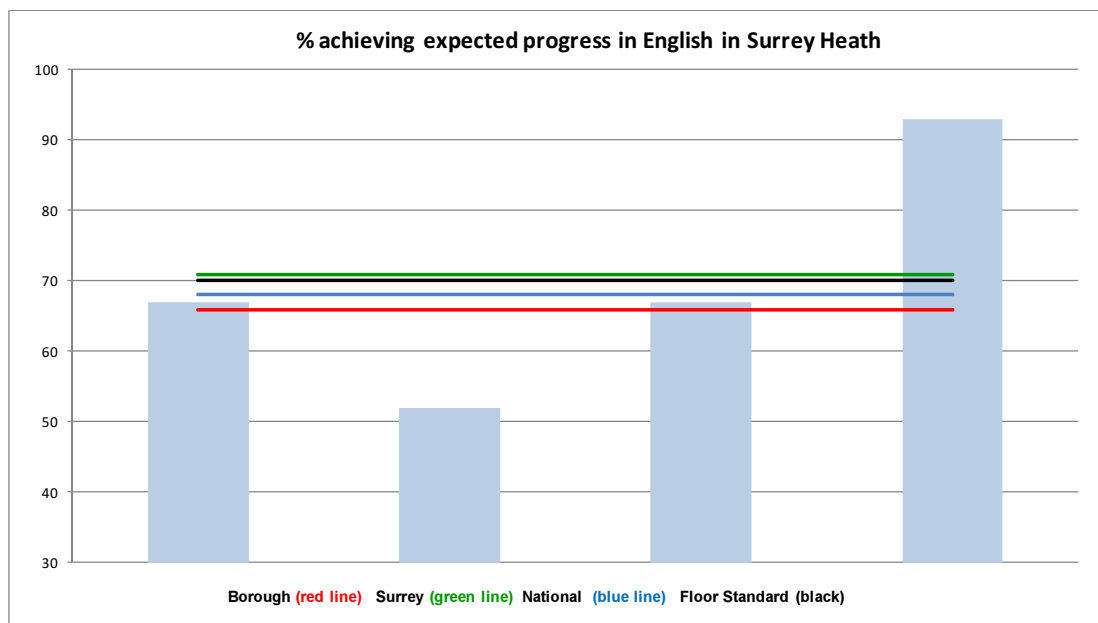

The percentage of disadvantaged pupils in Surrey making at least 2 levels of progress in mathematics was 75% compared with 82% of the national average. It included those pupils who had been eligible for free school meals during the last six years (FSM6) or those continuously looked after for six months. Amongst the 14 junior and primary schools in Surrey Heath, five were below and three were equal to or above the national average. The data of the remaining six schools was suppressed and hence unavailable for analysis.

## 2.6 Key Stage 4

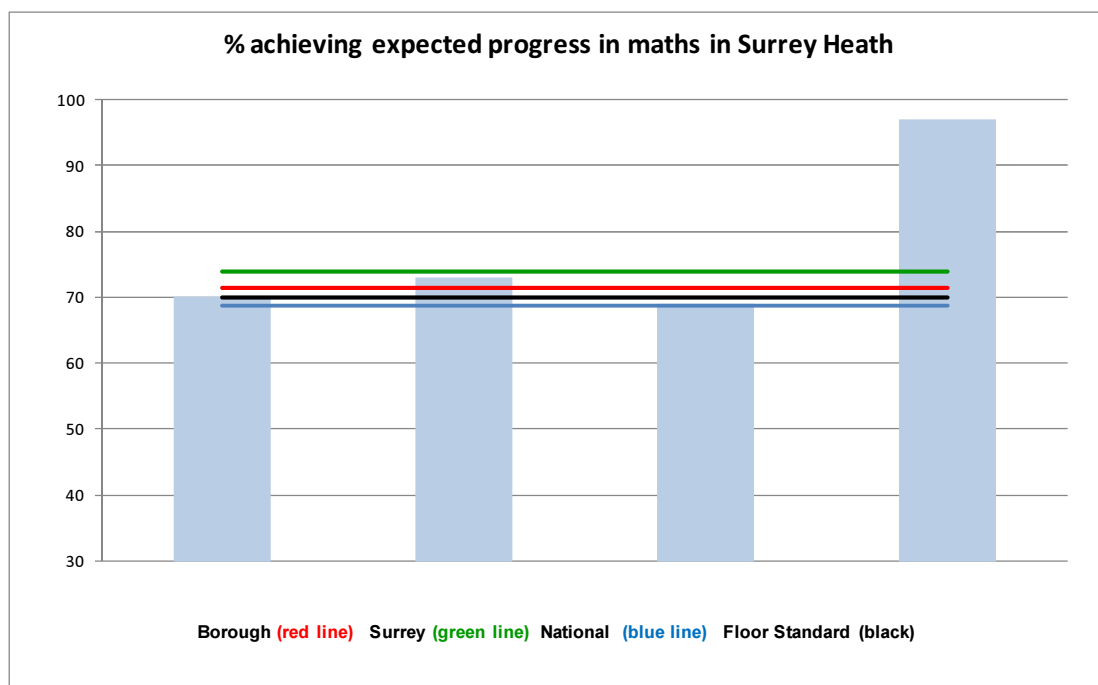

62.8% of pupils in Surrey Heath achieved 5 or more GCSEs or equivalent at grades A\* to C including English and Mathematics. Surrey Heath was below the Surrey average of 64.2% but it was above the national average of 59% as well as the floor standard of 40%.

65.9% of pupils in Surrey Heath achieved the expected progress in English which was below the Surrey average (70.9%), the national average (68.1%) and the floor standard (70%).

71.4% of pupils in Surrey Heath achieved the expected levels of progress in mathematics which was below the Surrey average of 74%. It was higher than the national average of 68.7% and the floor standard of 70%.

Any school failing to reach all three thresholds is designated as below the expected floor standards for 2012. No school in Surrey Heath fell into this category.

## 2.7 Key Stage 4 – prior attainment

The percentage of pupils in Surrey in the low prior attainment band (below level 4 at Key Stage 2) making at least 3 levels of progress in **English** was 46.1% compared with 44.9% of the national average. Amongst the four schools in Surrey Heath, two were below and one was equal to or above the national average. The data of the remaining school was suppressed and hence unavailable for analysis.

The percentage of pupils in Surrey in the low prior attainment band (below level 4 at Key Stage 2) making at least 3 levels of progress in **mathematics** was 31.5% compared with 29.9% of the national average. Amongst the four schools in Surrey Heath, two were below and one was equal to or above the national average. The data of the remaining school was suppressed and hence unavailable for analysis.

## 2.8 Key Stage 4 – pupil premium

The percentage of disadvantaged pupils in Surrey making at least 3 levels of progress in **English** was 47.9% compared with 53.8% of the national average. It included those pupils who had been eligible for free school meals during the last six years (FSM6) or those continuously looked after for six months. Amongst the four schools in Surrey Heath, three were below and one was equal to or above the national average.

The percentage of disadvantaged pupils in Surrey making at least 3 levels of progress in **mathematics** was 50.7% compared with 51.5% of the national average. It included those pupils who had been eligible for free school meals during the last six years (FSM6) or those continuously looked after for six months. Amongst the four schools in Surrey Heath, three were below and one was equal to or above the national average.

2.9 Key Stage 5

95% of the pupils in Surrey Heath achieved 2 or more A level or equivalent at grades A\* to E. This performance was below the Surrey average of 98% and the national average of 97.7%.

### **3 OPTIONS**

- 3.1 The Committee is asked to note the information provided within the report.

### **4 CONSULTATIONS**

- 4.1 There have not been any consultations carried out on the report.

### **5 FINANCIAL AND VALUE FOR MONEY IMPLICATIONS**

- 5.1 None for the purposes of this report.

### **6 EQUALITIES AND DIVERSITY IMPLICATIONS**

- 6.1 None for the purposes of this report.

### **7 CRIME AND DISORDER IMPLICATIONS**

- 7.1 None for the purposes of this report.

### **8 CONCLUSION AND RECOMMENDATIONS**

- 8.1 Performance at Early Years, Key Stage 1 and Key Stage 2 continues to be good. However further improvement in reaching the expected floor standards for progress in English and Mathematics continues to be a focus for Primary schools.

Eight primary schools are currently graded as overall effectiveness 3 or 4. These schools continue to be supported and challenged by the Local Authority to ensure that they secure a good judgement at their next Ofsted inspection.

- 8.2 The secondary school currently graded 3 by Ofsted continues to receive a high level of support to help it achieve a higher grade at its next inspection.

- 8.3 Focus continues on closing the attainment gap between the highest performing pupils and the lowest performing pupils

- 8.4 Work continues with all agencies to provide support around schools e.g. health, housing, children's services, so that schools in more deprived areas are supported effectively.

- 8.5 A new School Improvement Service should utilise the best available experts to support schools to ensure all schools are good or better by 2017 and all pupils achieve their best potential.

- 8.6 In secondary schools, work continues to close the gap in achievement between students eligible for the pupil premium and all other students.

8.7 Focus will be on leadership expertise with schools to ensure that schools are well led and managed.

## 9 REASONS FOR RECOMMENDATIONS

9.1 The recommendations are to inform Local Committee members of the planned support being provided to schools in the borough of Surrey Heath.

## 10 WHAT HAPPENS NEXT

10.1 The Surrey Heath Local Committee is invited to receive further updates as desired.

Version No. 1      Date: 08.02.2013      Time:      Initials:      No of annexes: 1

## Annex 1 – Technical notes

### Early Years

- Children are normally aged five when they are assessed, although a minority may be slightly younger or older.
- The Foundation Stage Profile is based on teacher assessments completed in the Summer term 2012.

### Key Stage 1

- Children are normally aged seven when they are assessed, although a minority may be slightly younger or older.
- Whilst the expected level is Level 2+, the Department for Education recommend that children reach Level 2B or higher at key stage 1 to have the best chance of gaining Level 4+ at key stage 2.

### Key Stage 2

- Children are normally aged eleven when they are assessed, although a minority may be slightly younger or older.
- Please note that the expected progress methodology changed in 2011 and 2012. The information here is based on 2012 methodology but care is required if making direct comparisons to progress measures published in previous years.
- The English Level is calculated differently this year so caution is required when making comparisons to previous years. The English figures are based on Writing TA figures and Reading Test levels.

### Key Stage 4

- The key stage 4 information is a summary of the GCSE and equivalent results for pupils at the end of key stage 4 in state-funded schools (mainstream schools, special schools and academies) in the 2011/12 academic year. The results in the graphs have been based on the final data from Educational Performance Analysis System (EPAS) online.
- Expected levels of progress in English and mathematics are based on pupils making at least three levels between key stage 2 and key stage 4.

### Key Stage 5

- The key stage 5 information is a summary of the A level and equivalent results for pupils at the end of key stage 5 in state-funded schools (sixth form only) in the 2011/12 academic year. The results in the graph have been taken from the provisional data from Educational Performance Analysis System (EPAS) online.

### Ofsted

- Data covers all inspections in Surrey (and in each Borough/District) to 13 December 2012 which is all inspections to the end of the Autumn term 2012. The national data is to 31 August 2012.

### Technical Notes relating to Pupil Premium and Prior Attainment Band performance data

Our aim is to use data that is readily available in the public domain from official sources where ever possible. School level data for the performance of Pupil Premium groups and Prior Attainment bandings was part of the official data set published by the DfE alongside the Performance Tables and this was used to produce figures for the Local Committee reports.

However, the Department of Education has a strict policy on the publication of small numbers, which states:

[They will] suppress publication of figures relating to a cohort of 5 pupils or fewer. This is intended to reduce the risk of individual pupils being identified from published data. In the 2012 Performance Tables:

- We will suppress publication of all figures relating to a cohort of 5 pupils or fewer; and;
- We will suppress publication of figures relating to the characteristics of pupils (SEN, Free School Meals etc) where there are fewer than 6 of the pupils in the group. For example, if there are four pupils not eligible for FSM in the schools, all indicators for eligibility for free school meals will be suppressed.

As a result the performance figures for a number of schools in the Local Committee reports were suppressed.

More detailed calculations based on individual pupil level data provided to the Local Authority were not possible due to the limited time between publication and the Local Committee report deadlines.

## List of data sources

### Early Years

- The information is based on Teacher Assessment reported on Keypas. National figures were provided in the Department for Education Statistical First Release.

### Key Stage 1

- The information is based on Teacher Assessments reported on Keypas in January 2013. National figures were provided in the Department for Education Statistical First Release 21\_2012

### Key Stage 2

- The information has been calculated from the revised pupil level results issued by the Department for Education and the Statistical First Release, which was published on 13th December 2012.

### Key Stage 4

- The information is based on the final results in Educational Performance Analysis System (EPAS).

### Key Stage 5

- The information is based on provisional results in Educational Performance Analysis System (EPAS).
