The footbridge is unfit for purpose.

It's not easy for pushchairs to use the footbridge.

This is a very busy road/ Traffic is heavy

Speeding is a problem – 30mph speed limit is ignored

Central islands at crossing points are too small for family groups (particularly with pushchairs)

Some better crossing facility is needed for the clinic /school children

Footbridge is unsightly/ugly

Footbridge is never used

Alternative crossings are not 100% safe

Crossing near Health Centre is not OK due to bus bay

No footbridge will reduce safety and independence for young people

Replace footbridge or provide a pelican crossing

Replace the footbridge whatever the cost

A zebra crossing would cause chaos

The footbridge is the only safe way to cross road (Pelican crossings are not safe)

A footbridge or a similar safe crossing is needed

Construction of A3 diverted traffic flow for majority of users

Traffic islands are not a safe alternative

SCC should re-build footbridge

Increased numbers of pupils at St Andrews in recent years

Freedom to walk to school independently for some Y6 pupils will be denied if footbridge is removed

A pelican crossing would be much better than the footbridge but needs to be closer to the Medical Centre

Cannot imagine doing without the footbridge

Physical speed control is needed in this area

Enjoyed using the footbridge

The footbridge is a great landmark

The footbridge is regularly used by pupils

Traffic has generally increased since footbridge was built

Need a new footbridge or a Zebra crossing

50 children get bus from stop opposite Clinic

Access to clinic makes adjacent crossing busy

Was planning to use footbridge in the future for unsupervised school run

Why are there speed controls in Seven Hills Road where nobody seems to use pathways and not here?

It feels dangerous crossing on islands particularly when a HGV passes

What about a pelican crossing instead of the footbridge?

A speed camera would be a good idea

The footbridge is needed for access to common

I live in Denby Road and haven't used footbridge or seen anyone on it

We need a better crossing than islands

No objection to removal but speed control and safe crossing points are needed

Police station crossing is no good as an alternative

I wish to raise road safety concerns

Welcome removal from aesthetic point of view but would not want to compromise safety - maybe a pelican crossing is needed

Replace footbridge with additional signs to motorists and a pelican crossing

Zebra crossing with traffic lights at peak times

Controlled pedestrian crossing is needed opposite Cobham Health Centre

Good idea to remove footbridge – glad to see it go

Stones were thrown from the footbridge onto cars causing damage and potential injury on more than one occasion

Good idea but a sign is needed to warn of children crossing

Fully endorse proposal to remove footbridge – have never seen anyone on footbridge and it is an eyesore

Bridge is mostly used by dog-walkers

Children taking bus don't use the footbridge – they use the crossing island instead

Railings should be removed too

Why wasn't it removed sooner?

Alternative arrangements in place would be fully adequate

Crossings need to be made more visible
