

Site	No of Places/Current Restriction	Types of shop	Occupancy /Time	Turnover	Potential Types of Parking	Potential displacement and effects	Conclusion
Kingspost Parade	53 spaces (approx. 24 private).  Carried out: 3pm Fri 8/7/11  (note proposals agreed at the local committee reduce the space to 25 on the highway and 24 on the private land.)	Estate agents, take aways, sports, hairdresser, cycling, wine, newsagent, carpets, baker, bank, tiles, fishmonger	4 spaces free	Good	Shoppers, shop workers, residents	Parade fairly isolated but risk of displacement into Burpham lane. Large Sainsbury's near by with free parking.	No current restrictions so hard to tell the number of long stay parkers and the additional benefit of churn. Recommend limited waiting initially, with a review of restrictions in the surrounding areas, like Burpham Lane.
Woodbridge Hill	Estimated 28 spaces. 2 hours limited waiting Mon to Sat.  Carried out: 10.15am Tue 12/7/11	Co-op, carpets, guitar shop, dry cleaners, betting shop, halal grocers, security systems, hairdresser, vets, takeaway, undertaker, saga, post office, restaurant, motorcycle shop. One shop closed.	19 used and 9 free.  Bays observed for 30 minutes. Always some free although this did not stop a few motorists stopping on yellow lines to "nip in".	Very good.  In 15 minutes 11 vehicles left and 13 arrived. Most stayed less than 5 minutes.  Only 6 vehicles stayed longer than 30 mins. 3 belonged to builders and 2 had pet blankets in the back, and could have been associated with the vets.	Predominantly shoppers, and on occasion of the site visit, builders	Pavement parking already a problem. Residents with off street parking but no dropped kerbs. Pub with 23 unrestricted parking spaces, unrestricted parking bays in Manor Road and further into Weston Road. Large Tesco's one junction up A3.	The current restrictions seem to work well. Charging is likely to lead to displacement into residential streets and the pub car park, and may encourage people to use other shops.
