

Local Committees Climate Change Fund

Application Fund

Closing date for this fund: 16th March 2010

Contact details	Help Notes
<p>Q1 Name of Local Committee: Mole Valley</p>	<p>The name of the Local Committee submitting the bid</p>
<p>Q2 Name and position held in the organisation: Title: Mr First Name: Derek Surname: Smith Position held in the organisation: Secretary, Transition Ashtead Initiating Group Contact address: 46 Copthorne Road, Leatherhead, Surrey Post code: KT22 7EE Telephone: 01372-378914 Fax: E-mail: derek,leatherhead@ntlworld.com</p>	<p>This is the person we will contact if we need information about this application</p>
What are you seeking funding for?	
<p>Q3 Provide the name and contact details of the organization that will receive the funding</p> <p>Transition Ashtead Home Energy Group Secretary: Derek Smith. Contact details as above.</p>	
<p>Q4 Describe the project or activities you are seeking funding for</p> <ol style="list-style-type: none"> 1. We aim to carry out a programme of planned activities over one year to promote the importance of reducing domestic energy consumption and carbon emissions to Ashtead residents. The plan is to have three events – the first in early April to initiate interest (speaker + some home energy efficiency equipment demonstrations), the second in June as a main event to have speakers and workshop/exhibitions on relevant locally available technology. The third is to have a speaker and equipment display on home renewable energy options. 2. We aim to set up a library of locally available energy efficiency equipment – some to show and some to loan e.g. draught meters, LED and low energy light bulbs, power meters so people can see and try them out. 3. Get a small number of people trained in (a) draught 	<p>Briefly describe the proposed actions and the activities that will be undertaken</p>

<p>proofing methodologies so they can train others to create a pool of people who can do this and (b) advising people on the grants available for domestic carbon reduction work and if necessary helping people complete the grant application forms. We plan to carry this out as part of the Ashtead churches Act10n initiative in 8-12 July, and so the main beneficiaries should be needy and vulnerable people.</p> <ol style="list-style-type: none"> 4. Research local suppliers of energy efficiency and renewable energy suppliers and identify those with real expertise and good reputations and create a preferred supplier list or get them added to the approved trade lists such as Checktrade 	
<p>Q5 What outcomes and outputs will you be aiming to achieve through these main functions and how do they help SCC achieve its priorities?</p> <p>The outcome is intended to be the increased take-up of energy efficiency technologies in Ashtead and a widening awareness of what local action can do to reduce CO2 emissions.</p> <ol style="list-style-type: none"> 1. Three events will be held to increase awareness. 2. Through the installation of draught proofing there will be direct reduction in energy demand and reduced heating costs for needy people. In the other actions there will be encouragement for the wider community to identify opportunities for their own homes. 3. The demonstration equipment will be bought, maintained and lent to interested parties for short periods and records kept of the activity 4. There will be a draft local approved suppliers list made available (subject to any legal restrictions). <p><i>Please also say if you are working with any SCC service and the named contact(s).</i></p>	<p>An outcome is the direct difference your project will make. The outcomes and quantifiable outputs you specify will form part of our funding agreement with you.</p>
<p>Q6 How will you measure your success in carrying out the activities and achieving the outcomes you have set out above?</p> <ol style="list-style-type: none"> 1. Three events held with reasonable public attendance. 2. Two or three members trained in draught proofing with some cascaded dissemination to others and demonstrated and replicated delivery to a number of households in Ashtead. 3. Creation of library of energy efficiency equipment and evidence of its being used. 4. Draft of approved supplier list. 	<p>We don't want to create reporting burdens so do keep systems simple, realistic and informative. If you measure your success for other funders - could some of that information be used by us too?</p>
<p>Q7 Please set out the project timescale and key project milestones.</p> <ol style="list-style-type: none"> 1. 1 year programme of awareness raising – 3 events in April, June and winter 2010. 2. Community event in June with draught proofing delivery 3. Set up library of technologies by May and maintain it for minimum 1 year. 4. Concentrated campaign of draught proofing and loan applications in July 8-12 followed by ongoing work in rest of year (extent will depend on how many volunteers are recruited) 	<p>We will be requiring a brief quarterly update on progress and these milestones will form the basis of that update</p>

<p>Q8 Who are your key partners – and what type of relationship do you have? (eg strategic planning, collaborative working, community development, funding, service delivery)</p> <ol style="list-style-type: none"> 1. Transition Ashtead Initiating Group – the steering group for all Transition Ashtead activities 2. Hyde Farm CAN – draught proof training 3. Collaborative working with Local Churches as part of the Act10n initiative 4. Local service suppliers – technology demonstrations 	<p>Please list the partner organisations you are working with and their involvement in the project.</p>
--	---

Financial Questions

<p>Q9 How much are you applying for in 2010-11?</p> <p>£1500</p>	<p>This should be the total amount of money you are asking from SCC in 2010-2011.</p>
---	---

<p>Q10 How will this funding help the project or initiative? What are the implications of not receiving the funding you have requested from SCC? What are the implications of receiving part of the funding you have requested from SCC? (Please keep answer brief)</p> <ol style="list-style-type: none"> 1. Help hire halls for events and publicity. <i>If no funding then smaller events and less publicity. Part funding will make this a priority</i> 2. Purchase and create the library of energy efficiency technologies. <i>Without the grant the type of equipment will be much more limited. Part funding will make this a priority but reduce its scope.</i> 3. Pay for a couple of people to be trained in draught proofing. Purchase some starter material for draught proofing demonstrations. <i>Without the grant the type of material purchased and used will be much more limited. Part funding will make the training a priority but other sources of funds for the supply of initial material will need to be sought or recipients will need to make a full contribution to net material costs (net of any grant).</i> 	<p>For example it may enable greater security, longer term planning, or to carry on providing a service that benefits other organisations and communities</p>
---	---

<p>Q11 Has the project received financial support from any part SCC (including Local Committee allocations) in the last 2 years? If yes, please give brief details. No</p>				<p>This information helps SCC to continue to monitor its support to Surrey organisations and promote collaboration between departments.</p>
<p>Name of Funding</p>	<p>Name of Manager</p>	<p>Amount</p>	<p>When</p>	

**Completing this form does not guarantee success when applying for funding
All successful projects will be required to complete an evaluation form outlining the
outcomes of the project**

**I confirm that to the best of my knowledge the information contained within this
Application Form and the enclosed supporting documentation is accurate.**
