

New diag. 2507. Direction to "Pay and Display" Right

New diag. 2929. 'Deliveries' Straight ahead

New diag. 2507. Direction to "Pay and Display" Left

New diag. 2806. 'Deliveries' Turn right

New diag. 652 to replace existing diag. 616

New diag. 2806. 'Deliveries' Turn left

New diag. 2505. Direction to "Pay and Display" Straight Ahead to "Superstore" Right

NOTES

1. All works are to be carried out in accordance with the Department of Transport Specification for Highway Works 1998 and any amendments thereto and clause numbers on the drawing refer to that document.
2. All kerbs to be 125x255mm PCC Type BN with 125mm kerb face except at pedestrian and vehicular crossing points where upstand to be 0-3mm, and 12mm at edge of vehicular overrun areas. Suitable ramped kerbs to be used to form crossing points except as described in Note 6 below. PCC Type BN quadrants must be used on splitter islands as indicated. Radius to be 450mm or 300mm as detailed in the setting out schedules.
3. Footway edgings to be used as a restraint to tactile paving. 50x150mm PCC Type EF, set flush with footway level.
4. Crossfall over footway width to be 3% towards the carriageway.
5. Construction details are to be Surrey County Councils.
6. All setting out to be based on the coordinates provided to the Contractor and not from dimensions shown on this drawing.
