

# **PUBLIC QUESTIONS**

**23 April 04**

**Question 1.**

**From Tony Davis , Runnymede Borough Cllr for Chertsey South and Rowtown :**

Could the Committee please advise whether any research is known to have been done by Department of Transport or other bodies into the effects of various vertical deflection traffic calming mechanisms on the disabled, those suffering from back pain or any other particular medical conditions, and if so what the broad conclusions from such research has been?
