

OFFICER REPORT TO LOCAL COMMITTEE (SPELTHORNE)

ANNUAL REVIEW OF ON-STREET PARKING IN SPELTHORNE

16 January 2012

KEY ISSUE

To update members about the Borough wide parking review.

SUMMARY

Last year Surrey County Council's Parking Team completed a review of on-street parking in Spelthorne, and identified changes in restrictions which would benefit road safety and reduce instances of obstruction and localised congestion.

Following the Local Committees approval in July last year formal consultation about the proposals was carried out during November 2011. There were a total of 145 objections and 2 petitions received in response to advertising the proposals. These have been assessed, summarised and were sent to County Council members of the Committee on the 4th January. Over the coming weeks the Chairman, Divisional Member and the Parking Team Manager will consider the objections and try to resolve them if possible before agreeing a way forward.

When this has been done a works order will be placed with the intention of implementing the new and amended parking restriction road markings and associated time plates during March/April 2012, funded from a combination of Local Committee and Parking Team Revenue budgets.

OFFICER RECOMMENDATIONS

The Local Committee (Spelthorne) is asked to note the contents of this report.
