Aspirations for the future

To Develop a project aimed at working with Young people who have been excluded from school. This is a high risk group for coming to the attention of the police. We are hoping to combine outdoor Ed with a personal and social skills programme to prevent and deter YP from Risk behaviours and support their transition into more positive use of their time.

To strengthen the work with the Police and Community Safety to engage with YP where the needs are high. Achieve an overall reduction of underage sales of alcohol and increasing the protection for vulnerable consumers from scams and doorstep crime.
