

## Forthcoming Major Works on the Highway in Waverley

All the following information is as currently available at the time of preparing this report, and may be subject to change. Works may be abandoned or postponed for a variety of reasons, for example if they are weather dependent, or if adjustments to dates are requested by the Streetworks team for coordination reasons. Other works may be brought forward by agreement.

Immediate works (categorised as either Urgent or Emergency) are by definition unplanned, and therefore not included below.

Information on Minor (up to three days duration) and Standard works (up to ten days duration) is also not included.

### Road Closures / Traffic Regulation Orders

The following table shows road closures and restrictions on turning movements that are currently in place for planned works.

The process for implementing a closure or restriction takes approximately eight weeks (to allow for the required advertisements to be placed in the local press and on site), and additional closures may therefore be submitted prior to the Committee meeting.

Binscombe Lane, Farncombe	20/06/10 to 25/06/10	Surrey Highways	Local Structural Repairs (LSR) / Resurfacing
Fullers Road, Farnham	27/06/10 to 02/07/10	Surrey Highways	LSR/Resurfacing

Thames Water	George Eliot Close, Witley Badgers Close, The Cedars, Swallow Close, Milford Rectory Close, Mill Lane, Park Close, Bramley All dates to be confirmed.

## How to find further information on road works in Surrey

1. Surrey's Roadworks webpage

Go to the Surrey website at [www.surreycc.gov.uk](http://www.surreycc.gov.uk), select "Roads and Transport", then "Road Maintenance and cleaning", and finally "Roadworks"

Members of the public can register for daily e-mail updates on roadworks in their area, either for a particular road or for any works in a town of your choice.

2. Surrey's new Traffic and Travel webpage

This is a new section of the website, and is still being developed and improved, but is available to the public.

Go to the Surrey website at [www.surreycc.gov.uk](http://www.surreycc.gov.uk), select "Roads and Transport", then "Traffic and Travel Information", and finally "Map".

Clicking the Roadworks button will then display a road sign for each current roadworks site, and more detail can be obtained by clicking on the symbol.

3. Elgin "Roadworks Info" website.

Elgin is the Electronic Local Government Information Network, and provides information on roadworks across the country, and so has the advantage of showing details of works in neighbouring authorities that may affect Surrey's roads or those travelling across the county boundary.

Go to [www.elgin.gov.uk](http://www.elgin.gov.uk), and choose Surrey from the "Zoom to" drop down list.
