

LOCAL TRANSPORTATION SERVICE PERFORMANCE INDICATORS

LOCAL COMMITTEE FOR WOKING 14 JULY 2004

KEY ISSUE:

This report provides information regarding performance indicators used within the Local Transportation Service

SUMMARY:

Given the wide range of information available, apart from financial and road information already reported on, a précis of key performance indicators and customer contacts is provided for Committee

CONSULTATIONS:

None have been undertaken

OFFICER RECOMMENDATIONS:

- (i) The Committee is asked to note the content of this report

INTRODUCTION and BACKGROUND

- 1 Data is gathered within the LTS for the following:
 - Financial budget monitoring
 - Road performance
 - Key Performance Indicator returns to Government Office for the South East (GOSE)
 - Service Plan Performance Wheel Target (SPWT) returns to Transportation Management Team (TMT)
 - Local Performance Indicators (LPI)
- 2 SWPT and LPI are used by the LTS management team in the formulation of local strategy, driving the service forward, and day to day management.
- 3 This report identifies the sources of these data, by whom reports are required and, if they are in the public domain, where the information is published.
- 4 There are additional statistical data derived from customer contacts, which point to the issues, which are currently most popular.

ANALYSIS AND COMMENTARY

- 5 Financial performance and road performance are constantly under review by the LTS management team and reports are presented quarterly to the Local Transportation Committee.
- 6 Surrey County Council publishes data on the Web under the heading Learning to Excel – Accounting for Performance (LEAP). This site is updated quarterly and provides data on all Council services. The site can be found by selecting from the main menu: *About your Council: How we are doing against our targets and measures: The Database: Transportation.*

Annex A shows the current published data.

- a. The LTS gathers data from various internal sources and where appropriate submits it for inclusion in Service wide performance indicators.

- b. Data extracted from our Customer Relationship Management software on which are captured customer contacts passing through both the LTS and the Surrey Contact Centre, show that during the following periods the most popular subjects, raised by our customers either in the form of reports, requests for information or complaints were:

1 January to 31 March 2004

Street light out	192
Pothole	94
Deterioration of the highway	68
Damaged or missing manhole cover	50
Blocked gully	38
Overgrown vegetation	36
Vehicle crossover	33
Street light on during the day	31
Enquiry about a maintenance scheme	23
Enquiry about improvement scheme	13

1 April to 24 June 2004

Street light out	116
Pothole	82
Overgrown vegetation	61
Damaged or missing manhole cover	52
Deterioration of the highway	48
Vehicle crossover	44
Blocked gully	38
Street light on during the day	29
Enquiry about a maintenance scheme	22
Enquiry about improvement scheme	18

CONSULTATIONS

- 7 No consultation was involved in the development of this report.

FINANCIAL IMPLICATIONS

- 8 The financial implications of the issues raised by customers are known and understood, and where appropriate, taken account of in the building of revenue maintenance budgets year on year.

SUSTAINABLE DEVELOPMENT IMPLICATIONS

9 None

CRIME & DISORDER IMPLICATIONS

10 Referring to the inputs from the customer the LTS recognises that there are implications for the safety of pedestrians, especially during hours of darkness, which may result from overgrown vegetation, faulty streetlights and the combination of the two.

EQUALITIES IMPLICATIONS

11 None

CONCLUSION AND REASONS FOR RECOMMENDATIONS

12 Whilst the performance data available has its many uses, the Local Committee may find it beneficial to know, periodically, about what issues Woking highway users have contacted Woking Local Transportation Service.

Report by: Stephen Child, Local Transportation Director, Woking
