SURREY

You can get involved in the following ways

Ask a question

If there is something you wish know about how your council works or what it is doing in your area, you can ask the local committee a question about it. All local committees provide an opportunity to raise questions, informally, up to 30 minutes before the formal business of the meeting starts. If an answer cannot be given at the meeting, they will make arrangements for you to receive an answer either before or at the next formal meeting.

Write a question

You can also put your question to the local committee in writing. The committee officer must receive it a minimum of 4 working days in advance of the meeting.

When you arrive at the meeting let the committee officer (detailed below) know that you are there for the answer to your question. The committee chairman will decide exactly when your answer will be given and may invite you to ask a further question, if needed, at an appropriate time in the meeting.

Get involved

Sign a petition

If you live, work or study in Surrey and have a local issue of concern, you can petition the local committee and ask it to consider taking action on your behalf. Petitions should have at least 30 signatures and should be submitted to the committee officer 2 weeks before the meeting. You will be asked if you wish to outline your key concerns to the committee and will be given 3 minutes to address the meeting. Your petition may either be discussed at the meeting or alternatively, at the following meeting.

8 A245 STOKE ROAD - SPEED LIMIT [EXECUTIVE FUNCTION - FOR DECISION]

(Pages 31 - 44)

This report summarises the outcome of the speed assessment for Stoke Road, for the lowering of the speed limit from 40mph to 30mph, which was reported to Committee in September 2014.

In 2014, the speed limit was lowered from 40mph to 30mph. Extensive utility works on Stoke Road have delayed assessment of the effects of the change in speed limit. In 2017 surveys have shown that traffic speeds have increased, potentially increasing the likelihood of traffic collisions occurring, and potentially worsening the consequences of traffic collisions that do occur.
