- **DIGITAL INFRASTRUCTURE STRATEGY AND DELIVERY UPDATE (Item 9)**

RESOLVED:

1. That the update on Surrey's Digital Infrastructure strategy, the external drivers and different investments and influences be noted.
2. That the steps being taken to accelerate delivery of certain key and relevant 'enabling' projects and to identify associated resourcing options be noted.

3. That an update be brought to Cabinet in the Autumn to include:

- Assessment of Building Digital UK (BDUK) plans, aligned to commercial rollout
- Update on delivery against the Digital Infrastructure strategy programme plan 'immediate actions'
- Identification of gaps (geographical and funding) and possible measures to address them

Reason for decision:

Achieving the Council's objectives around digital deployment and connectivity is critical to the well-being and prosperity of Surrey's residents and businesses. A digitally connected Surrey will ensure that our residents and businesses can benefit from new and emerging technology enablers, i.e. virtual and augmented reality (VR & AR) which will drive the next generation of innovation at home and in the workplace; for example, autonomous electric vehicles and transport, hyper-automation, drone delivery services and digital healthcare provision. Delivering these benefits for Council service outcomes requires a step change in digital capability and connectivity. Surrey's economic growth also requires a hyper-connected environment to facilitate its innovation eco-system.

- **SURREY'S ECONOMIC FUTURE: PROGRESS UPDATE** (Item 10)

RESOLVED:

1. That the progress being made in delivering on the ambitions of Surrey's Economic Future Strategy be noted.
2. That a progress update be received in six months.

Reason for decision:

Work to deliver on Surrey's economic ambitions is underway and progress is central to Surrey's economic recovery as we emerge from the constraints and impacts of the COVID 19 Pandemic. The actions being taken will drive economic recovery and embed resilience for Surrey businesses and residents, with a particular emphasis on ensuring that everyone is able to benefit from economic growth and therefore it is important that Cabinet have oversight of progress.

- **SURREY STREET DESIGN GUIDE: HEALTHY STREETS FOR SURREY** (Item 11)

RESOLVED:

1. That the work undertaken by Create Streets - the latest draft of 'Healthy

Streets for Surrey' be noted.

2. That the aims and objectives of the draft guidance be supported.
3. That stakeholder engagement be authorised.

Reason for decision:

Surrey County Council has a significant role in the design and implementation of new development, particularly in respect of streets specifically and transportation in general. As such, the County Council as the local Highway Authority advises the county's Boroughs and Districts on the transportation implications of applications for planning permission. The Surrey Street Design Guide, 'Healthy Streets for Surrey,' is being produced in order to assist developers, the Boroughs and Districts and the community to understand what the County Council will be seeking when considering proposals. The aim is to deliver high quality, attractive, safe, accessible and sustainable development.

Before the County Council finalises this approach, it wishes to share it with stakeholders to give them the opportunity to comment on and to influence the guide, with the ultimate aim of achieving well-designed places.

- **ACQUISITION OF LAND IN SUPPORT OF THE RIVER THAMES SCHEME**
(Item 12)

RESOLVED:

1. That the freehold purchase of land off Chertsey Road, Shepperton, as outlined in the Part 2 of this paper for the purposes of the River Thames Scheme be approved.

Reason for decision:

The decision recommended by this report will contribute to enabling the Council, in partnership with the Environment Agency, to progress the River Thames Scheme – a major infrastructure project that will reduce the risk of flooding from the Thames for communities in Runnymede and Spelthorne. It will achieve this through the construction of two new channel sections to divert water away from the Thames and additional capacity improvements to Sunbury, Molesey and Teddington weirs.

To construct the channel sections, it will be necessary to purchase land and to formalise agreements with third party landowners.

A forward purchase of land, in advance of submission of a Development Consent Order (DCO) application provides the opportunity for Surrey County Council and the Environment Agency to obtain land through agreement for the scheme. Forward purchasing also averts the risk of land disposal by current landowners possibly into small parcels that would make future purchase potentially more complex and expensive.

In addition, the purchase of this land provides an opportunity to provide green

infrastructure for the enjoyment of residents in Spelthorne, which is underserved by the Council's Countryside Estate which provides 10,000 acres of high-quality landscape and recreational space across the county but in Spelthorne, is limited to Sheepwalk Lake. The area known as Chertsey Meads on the opposite side of the river, complements the site linked on both sides to the Thames Path, a 184 mile long national walking trail, which provides an opportunity for a circular route within the site and an additional attraction for visitors to explore along the river.

Since the landscape quality of the site is currently low, there is a high net biodiversity value to be gained from managing the site to maximise value delivered by new wetland, woodland and grasslands.

Approving the purchase of the land will allow Surrey County Council to support both the River Thames Scheme project and the Greener Futures priority objective.
