Admission Agreements facilitate the joining of an Admission Body to the fund, a company performing certain functions for a scheme employer, and as a result of this is eligible to join the pension scheme.

Agreements are required to go through a signing and sealing process, the majority of which requiring wet-ink signatures until recently where an E-Signature & Sealing process was introduced. With the involvement of several parties, this made for a cumbersome exercise and has created a backlog of agreements to process. With the new electronic process, this has sped-up processing times
