Item / paper title: Children's Health and Wellbeing – status update

Purpose of item / paper	Following on from the meeting of the Health and Wellbeing Board on 5 September 2013 and 12 December 2013, this report summarises progress against the aims and outcomes for improving children's health and wellbeing. It provides a detailed status update on delivery against the workstreams identified by Surrey Children and Young People's Partnership and commissioning priorities for the Children's Health and Wellbeing Group.
Surrey Health and Wellbeing priority(ies) supported by this item / paper	This status update sets out how the Priority for Children and Young People's Health and Wellbeing is being delivered. The Draft Surrey Children and Young People's Partnership Plan 2014-17 provides an action plan for continued and future work to deliver the Priority.
Financial implications - confirmation that any financial implications have been included within the paper	This status update and action plan will shape the collective spend on children and young people's health and wellbeing of the following organisations: Surrey County Council, Clinical Commissioning Groups, Police and District and Borough Councils. This includes £325m Children, Schools and Families (not including schools) and £23m (Public Health total budget)
Consultation / public involvement – activity taken or planned	The status update and action plan has been informed by extensive public consultation on the Health and Wellbeing Strategy and needs analysis including service user experiences. Actions have been developed through workshops and meetings with the Health and Wellbeing Board, Surrey Children and Young People's Partnership and Children's Health and Wellbeing Group. The detail of delivery will continue to be further shaped by engagement with wider stakeholders for each action and further co-production with service users where appropriate.
Equality and diversity - confirmation that any equality and diversity implications have been included within the paper	The analysis of need that informs this action plan systematically identifies inequalities in health and wellbeing. The action plan has been developed to help to mitigate those inequalities. For example through our approach to supporting children with complex needs, targeting interventions to promote healthy behaviours, tackling the causes of poorer outcomes for children which can include parental issues like substance misuse and domestic abuse.
