

Park Road East, South Park bus stop i/w Eastnor Road (eastbound)

Current situation: Bus drivers struggle to negotiate turning at the junction from Eastnor Road into Park Lane East, and vice versa, due to cars being parked on the single yellow lines in this area. Bus operators have reported that this is a severe reliability and accessibility issue in the area (unfortunately this photo was taken when there were few parked cars but it helps to illustrate the narrowness of the junction for buses to manoeuvre around cars if they are parked in the vicinity of the junction).

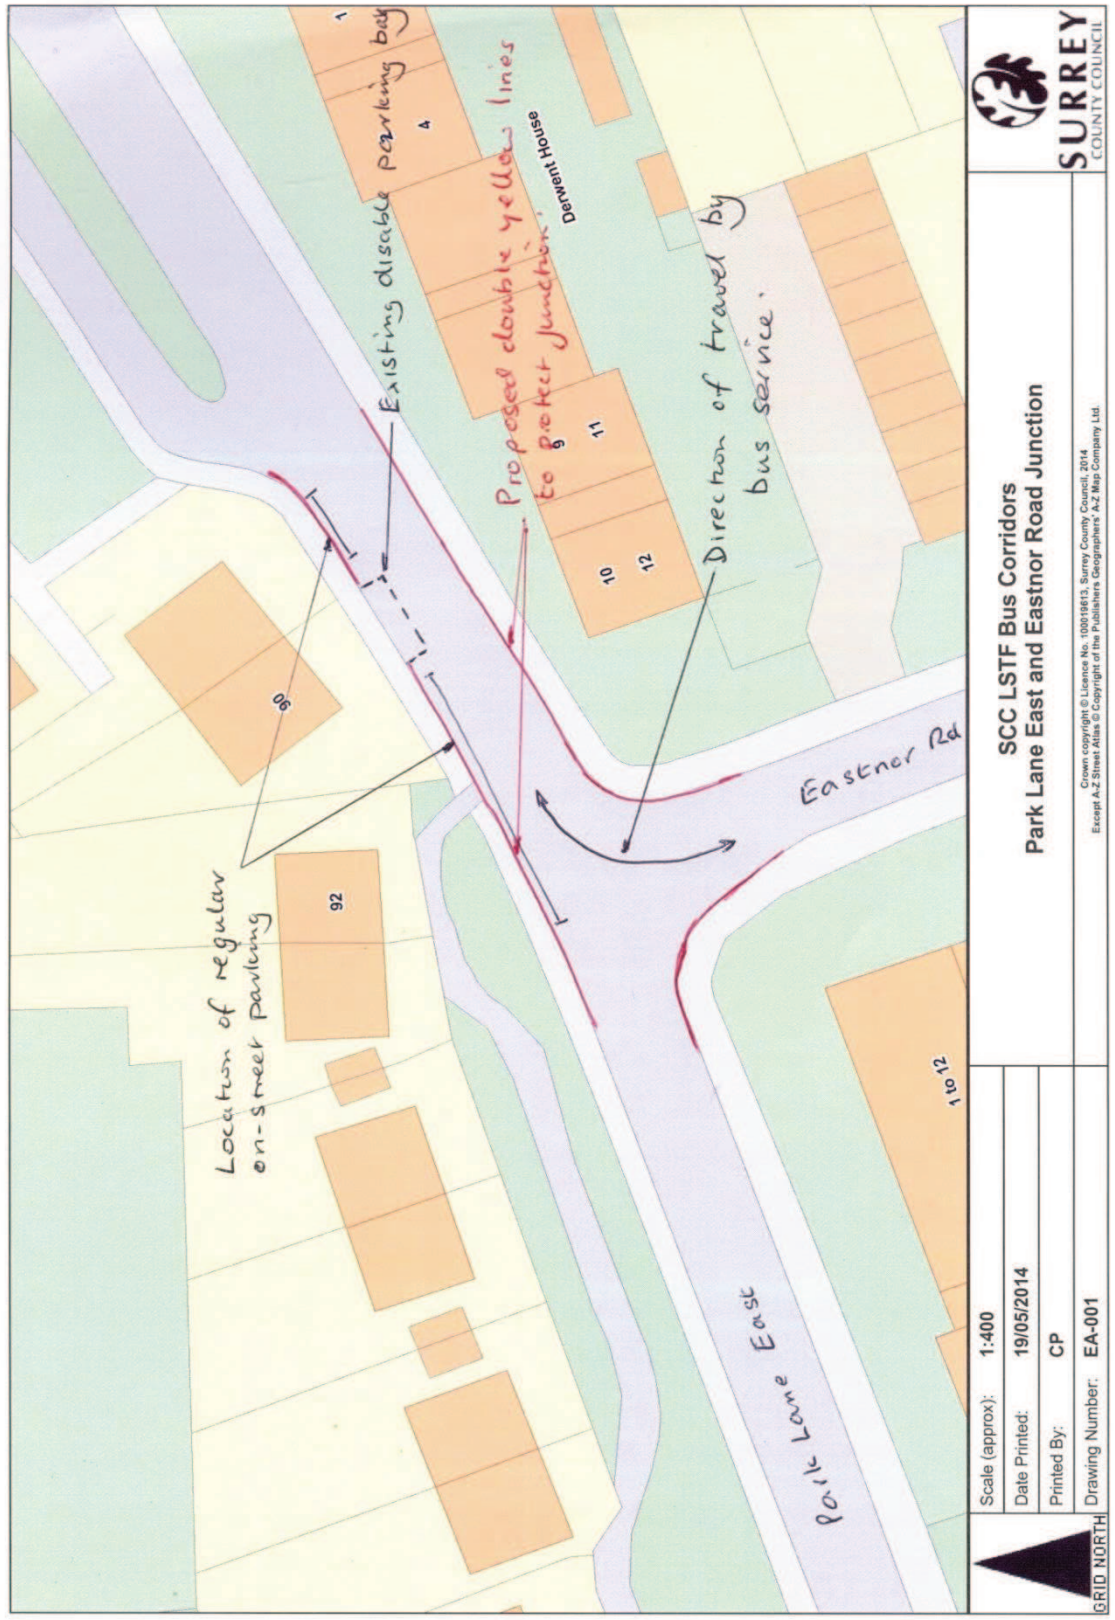

Location:

Design solution: Provide double yellow lines through junction and opposite the disabled space to ensure easy access for buses at this junction. Bus cage to be lined adjacent to bus stop. This will be implemented in conjunction, & after consultation, with Surrey County Council Parking Team.
