Objectives

10. The objectives of the proposals.

Numbers of children starting school in The Virginia Water and Englefield Green area have been increasing. There are not enough permanent reception places in September 2012 for those that need them. Therefore, an additional bulge class is being provided at Trumps Green Infant School. There will need to be additional junior places three years later for these children. The forecast increase in demand for junior places means we have identified St Ann’s Heath Junior School as a school that should expand over the next few years. All births in the Virginia Water & Englefield Green and adjacent areas have increased since

the Millennium, though dropped from 2003 to 2005, but have increased since then. The births are now significantly higher than around the Millennium, and they are projected to increase slightly beyond that. Births are now about 14% higher than 4 years ago, which means there will be about 14% more children needing a primary school place in 4 years than need a place now, with 14% more children needing a junior place in a further 3 years.
