Context

Residents expect services to be easy to use, responsive and value for money. Demands are increasing while financial resources are decreasing. We will meet these challenges by continuing to work as one team with our residents and partners. By working together, investing in early support, and using digital technology we will improve and ensure residents can lead more independent lives.

Changing birth rates and people moving into Surrey means that 13,000 more school places are expected to be needed by 2020

Surrey's population is increasing and is ageing - by 2020, it is estimated that older people will make up 20% of the population, increasing demand on health and social care services

Surrey's economy expanded by 17% between 2009 and 2013, but there are critical challenges: roads are congested; employers struggle to attract staff with the right skills; and there is limited affordable housing

Our strategic goals
