- the promoter is carrying out Works for Road Purposes (WRP) as or on behalf of the highway authority
- if the permit is Deemed or
- if a Permit Variation is initiated by the permit authority

Permit fees are set using a calculator function from the DfT and are based on the historical information on the volumes of works and the road type on which they are undertaken. DfT maximum fees are shown in brackets.

Strong guidance from the DfT encourages low or zero fee values on less significant works on the non traffic sensitive network

**Fees are not intended to discourage works merely, and by statute, to cover the cost of administering the Permit application.**
