<b>Financial implications - confirmation that any financial implications have been included within the paper</b>	As an information update, there are no direct financial implications as a result of this report.
<b>Consultation / public involvement – activity taken or planned</b>	The priority setting and status update have been informed by extensive public consultation on the Health and Wellbeing Strategy and needs analysis including service user experiences. Actions have been developed through workshops and meetings with the Health and Wellbeing Board, Surrey Children and Young People's Partnership and Children's Health and Wellbeing Group. The detail of delivery will continue to be further shaped by engagement with wider stakeholders for each action and further co-production with service users where appropriate.
<b>Equality and diversity - confirmation that any equality and diversity implications have been included within the paper</b>	The analysis of need that informed the priorities in the Surrey Children and Young People's Partnership Action Plan 2015/16 systematically identifies inequalities in health and wellbeing. The priorities and actions for 2015/16 were developed to help to mitigate those inequalities. For example through our approach to supporting children with complex needs, targeting interventions to promote healthy behaviours, tackling the causes of poorer outcomes for children which can include parental issues such as substance misuse and domestic abuse.
