

## **Safer Waverley Partnership**

### **Partnership Plan 2015-2018**

#### **Aims**

The Safer Waverley Partnership aims to help residents feel safe and be safe in Waverley.

#### **Background**

The 1998 Crime and Disorder Act gave local agencies a shared responsibility for developing and introducing strategies to reduce crime and disorder in their area. The agencies came together as a Community Safety Partnership (CSP), known in Waverley as the Safer Waverley Partnership (SWP). Statutory members are:

- Surrey Police
- Waverley Borough Council
- Surrey County Council
- Surrey Fire & Rescue Service
- National Probation Service
- Clinical Commissioning Groups (Guildford & Waverley and North East Hampshire & Farnham)

Senior representatives of these organisations meet twice yearly in the SWP's Strategy Group to agree and review priorities. Regular oversight of the partnership's activities is maintained by the Coordination Group (COG).

#### **Key Priorities for the Safer Waverley Partnership**

The SWP's current priorities, as set out in the table on pages 3-5, are informed by:

- The regular assessment of patterns of crime and anti-social behaviour in Waverley.

- The knowledge and experience of partners.
- The priorities of partner organisations where these relate to community safety in Waverley

We will use the following methods to address each priority.

**1. Established partnership delivery mechanisms:**

Joint Action Group (JAG)

The JAG meets regularly to review crime and disorder levels in the borough, using crime and incident data to monitor emerging and potential problems. It prioritises its activity and tasks short term sub-groups to resolve problems at specific locations. The JAG keeps an overview of crime and disorder in relation to licensed premises and uses a 'traffic light' system to identify those where joint work is needed to address risks.

Community Incident Action Group (CIAG)

This is a multi-agency problem solving group which meets regularly to agree ways of working with individuals and families who are linked with significant anti-social behaviour and other associated community problems.

Casualty Reduction Action Group (CRAG)

Waverley has a well-established CRAG, consisting of representatives from Surrey Police, Surrey Fire & Rescue Service (SFRS) and Surrey County Council. The group aims to reduce road casualties in Waverley through education and information. It organises a programme of regular events, such as Road User Awareness Days in secondary schools, Ride it Right for motorcyclists and School Speed Watch.

Waverley Family Support Team

The Waverley Family Support Team provides intensive outreach support to families who meet the government's "Troubled Families" criteria. The team aims to work closely with individual families and the agencies who work with them; it uses a 'Team Around the Family' (TAF) approach to help them improve their lives and secure a better future for their children.

Services for Young People Partnership

The Partnership brings together organisations which provide relevant services in Waverley, including those delivering activities which prevent young people from becoming involved in criminal activity or anti-social behaviour and develop resilience to the risks facing them.

Surrey Community Safety Board (CSB)

The board is made up of senior representatives from Surrey Police, District and Borough Councils, Surrey Probation, Surrey Courts, Surrey Crown Prosecution Service, Surrey County Council, Surrey Fire & Rescue Service, Clinical Commissioning Groups, Police and Crime Commissioner, Mental Health and Surrey HM Prison Service. The board aims to ensure that Surrey agencies working in the field of community and public safety agree joint strategies and provide clear joined up direction to their organisations to improve outcomes.

Surrey Domestic Abuse Multi-Agency Development Group

The group acts as the delivery arm of the Surrey Community Safety Board for domestic abuse. It oversees the development and delivery of the domestic abuse strategy and work plan for Surrey, along with a number of task groups, including the Domestic Abuse Communications Group; this works with local officers to ensure that campaigns aimed at increasing awareness of domestic abuse and services available to victims are promoted consistently across the county. The SWP works closely with Chapter 1, the provider of outreach services to those affected by domestic abuse in Waverley.

Prevent Delivery Group.

Prevent is a national strategy to stop people becoming terrorists or supporting extremism. The Prevent Delivery Group reviews the Prevent implementation plan in Surrey. It identifies the areas in which local authorities can support Prevent, e.g. through training, links to Prevent on websites, attending briefings, monitoring community tensions and local delivery plans.

**2. Mainstream agency work:**

Where a topic identified is the core responsibility of one of the partner agencies, this will be dealt with through this lead agency's business process.

**3. The current year's Action Plan 2015-16:**

The Action Plan set out on pages 3-5 details the Partnership's key actions for the current year.
