

WOKING JOINT COMMITTEE

DATE: 23 SEPTEMBER 2015
SUBJECT: WRITTEN PUBLIC QUESTIONS
DIVISION: WOKING

1. Question from Phil Stubbs, Knaphill Residents Association

I would like a progress report on the Vyne barriers that should be in operation between The Broadway and Redding Way, Knaphill and also an update on any proposals to manage the congestion on the A322 through Knaphill and Brookwood.

Answer from Chairman on behalf of the committee:

The proposals to address some of the congestion issues on the A322 are being actively considered and a confidential report is before the Joint Committee.

The safety detectors in the carriageway surface, for the rising bollards by The Vyne were damaged by roadworks. The order was placed with our contractors for the repair of the detectors in March, but it has not yet been completed due to contractual issues. The bollards cannot be brought into use until the safety detectors have been repaired. I will let you know as soon as I am given a date for the repair.

2. Question from Mark Roberts

When will action be taken to improve the following:

- pedestrian access along the south side of Guildford road near Claremont Ave junction
- pedestrian road crossing facilities along Guildford Road near the junction with Claremont Ave
- traffic calming measures to deal with speeding traffic along the A320 Guildford between Claremont Ave junction and the A320/A247 roundabout

Answer from Chairman on behalf of the committee:

I understand that you have already raised this issue directly with Surrey Highways and the matter is currently under consideration. You will receive a response directly from Surrey Highways outside the meeting.
