

## Surrey Health and Wellbeing Board

Date of meeting	10 December

### Item / paper title: Accommodation with Care and Support

<b>Purpose of item / paper</b>	This report sets out the Council's future approach to accommodation with care and support and invites the Board's views on the Strategic Intent Document prior to being considered by the Cabinet later in December
<b>Surrey Health and Wellbeing priority(ies) supported by this item / paper</b>	<p><b>Improving older adults' health and wellbeing and safeguarding the population</b>- extra care housing, assisted living, supported living and supported housing offer security, reassurance and appropriate and responsive support to facilitate the provision of home based care services. These types of accommodation can assist more vulnerable adults to live within their local community for their whole lives.</p> <p><b>Developing a preventative approach</b> – implementing this strategy will enable the Council to commission preventative services that reduce the need for institutionalised care, reduce hospital admissions and facilitate quicker hospital discharge.</p>
<b>Financial implications - confirmation that any financial implications have been included within the paper</b>	<p>By focussing on ensuring a better understanding of future demand and developing the market sufficiently to meet those needs, whilst also maximising the use of our assets, this programme will contribute towards the savings already planned in the County Council's Medium Term Financial Plan (MTFP) and those required in future years.</p> <p>There is potential for further savings beyond those that are currently built into the MTFP. The expansion of Extra Care housing in Surrey is one area where further savings are considered possible. Based on an initial assessment of the cost of Extra Care compared to alternative forms of care, future demand for care services and capacity of the market to develop new Extra Care housing schemes, an additional £1m in revenue savings is forecast and has been added to the MTFP for 2018 to 2021.</p>
<b>Consultation / public involvement – activity taken or planned</b>	Discussions have taken place at the Local Joint Commissioning Groups held in each CCG area, looking both at the overall strategic intentions and also more detailed demographic

	<p>projections of future need. All the CCGs in Surrey as well as the Districts and Boroughs consulted to date have indicated their support from the direction of travel and have welcomed the opportunity to get involved from an early stage.</p> <p>A number of district and boroughs have also highlighted accommodation with care and support as a key element of their local plans in terms of future housing needs and are therefore keen to work with the Council on developing this market.</p> <p>The draft Strategic Intent Document was presented to the Social Care Services Board on 25 November 2015.</p>
<p><b>Equality and diversity - confirmation that any equality and diversity implications have been included within the paper</b></p>	<p>An initial Equality Impact Assessment (EIA) has been completed examining areas of consideration for any implementation of the Accommodation with Care &amp; Support strategy. Initial potential identified impacts centre on improved resident experience and outcomes, more people remaining independent within their own homes for longer and further consideration needed of people's natural communities, recognising that communities do not necessarily fit with statutory boundaries. A full EIA evaluating the impacts of the six local implementation plans, alongside any further business case, will be developed.</p>
