

SURREY COUNTY COUNCIL

LOCAL COMMITTEE (REIGATE & BANSTEAD)

DATE: 6 JUNE 2016

**LEAD OFFICER: SALLY WILSON, SERVICE IMPROVEMENT MANAGER,
SURREY FIRE AND RESCUE SERVICE**

SUBJECT: DRAFT PUBLIC SAFETY PLAN 2016 - 2025

DIVISION: COUNTYWIDE

SUMMARY OF ISSUE:

Surrey Fire and Rescue Authority is required by the Government to produce an Integrated Risk Management Plan (IRMP) which considers all the fire and rescue related risks that could affect our communities. This planning process helps us to identify longer term priorities, to make sure we have an up to date assessment of risk, and how to mitigate it effectively.

We set out our IRMP in our Public Safety Plan (PSP), which is currently valid until 2020. However within a constantly changing environment, new threats and opportunities have emerged. This new document outlines how we will respond and adapt to these changes and continue to deliver a high performing, valued, sustainable and cost-effective service.

The draft PSP refresh document covers the period 2016-2025.

Surrey Fire and Rescue Authority is currently consulting with the public and stakeholders on the direction it is intending to pursue, and is doing this in collaboration with the Surrey Fire Brigades Union, Resident Experience Board, Cabinet Member and Cabinet Associate Member. The consultation dates are 27 April to 7 June 2016.

RECOMMENDATION:

The Local Committee (Reigate & Banstead) is asked to note:

- (i) the report and make any comments about the draft Public Safety Plan which they would like to be taken into consideration as part of the consultation analysis. We encourage all councillors and members of the public to respond to our [online consultation survey](#) before the deadline of 7 June 2016.

REASONS FOR RECOMMENDATIONS:

Surrey Fire and Rescue Authority is seeking as many views on its draft Public Safety Plan as possible to help shape our service priorities for the future to better serve our residents.

1. INTRODUCTION AND BACKGROUND:

- 1.1 This refreshed PSP, currently in draft form, is our key planning document that describes how we will play our part in keeping Surrey residents, and those that work in or travel through the county, safe over the coming years. It outlines our understanding of the risks and challenges facing the county and how we will maintain, adapt and enhance our service accordingly.
- 1.2 Our current PSP was developed in 2011 and the context in which the plan was developed has changed. Drivers for change include:
 - a. Fall in demand for traditional services
 - b. Shift in population characteristics
 - c. Redefined budget and need to make further savings and efficiencies
 - d. Reviews and changes to policy and legislation including emerging Government policy on collaboration between emergency services and the recent Government departmental move of Fire Service policy from DCLG to the Home Office
 - e. Public Service Transformation projects with a key focus on collaboration
 - f. Busier roads
 - g. Environmental factors such as climate change and threat of terrorism.
- 1.3 The draft PSP should be read alongside the draft Equality Impact Assessment (EIA), a summary of which is provided in this report (paragraph 28). The EIA will be reviewed following the consultation period.

2. ANALYSIS:

- 2.1 The proposals in the plan are:
 - a. Undertaking an options appraisal on working more closely with other Fire and Rescue Services, and with Police and Ambulance Services, behaving as one, whilst maintaining our front-line provision.
 - b. Anticipating changes to the demographic profile across Surrey to identify and target residents and businesses most at risk of fire in our communities by using a broad range of data, including information shared with us by other agencies, to assist us with this work.
 - c. Increasing integration and meaningful collaboration with other emergency services to assist them to respond to an increasing demand for services, where we can improve community safety and add public value.

- d. Continuing to review mobilising arrangements with our emergency service partners (other Fire and Rescue Services, Police and Ambulance) to develop a next generation 999 call system to improve how we communicate, share information and respond to incidents to enhance public value.
 - e. Reviewing our training requirements and introducing more realistic training to offset the reduction in real-world experience created by a fall in demand for our traditional services.
 - f. Examining our communities to see where we can better meet community needs.
 - g. Exploring all options to maximise income and avoid, reduce or recover costs to enable us to invest in our workforce, facilities and community.
 - h. Review our Surrey Response Standard.
 - i. Review the way we call handle and respond to Automatic Fire Alarms.
- 2.2 Greater collaboration is a key theme of our proposals. Surrey residents are already experiencing the benefits of our closer collaboration with Police and Ambulance services. Surrey firefighters provide assistance to other emergency services with defibrillator usage, missing person location, assisted entry and, if we are first to attend an incident, immediate emergency medical care. These are examples of how we can offer a safer, more coordinated community response, which focuses on the needs of residents and the changing nature of emergencies.
- 2.3 In addition, we believe that further meaningful collaboration with our emergency service partners offers greater potential savings, because we can look to create efficiencies by eliminating duplication across services, which we cannot do if reviewing our own service in isolation.

3. OPTIONS:

- 3.1 This report is to note and so there are no options to consider.

4. CONSULTATIONS:

- 4.1 Public consultation
- a. Surrey Fire and Rescue Service is currently holding a 6 week consultation with the public and stakeholders on the draft refreshed PSP from 27 April until 7 June.
 - b. The links to the consultation documents and the communications plan are towards the end of this document.

ITEM 8

4.2 Fire Brigades Union

- a. Throughout the development of the PSP, Surrey Fire and Rescue Service has worked closely with the Fire Brigades Union. It is important that they have the opportunity to comment on our proposals and our vision for the service. As part of this co-designing process, the Fire Brigades Union has authored Chapter Three of the PSP. In addition, representatives have met with Elected Members, and they are members on the PSP Steering Group.

4.3 Resident Experience Board

- a. The Resident Experience Board considered a draft of the PSP at its meeting on 16 October. During the discussion, feedback was received which included comments about the use of technical language in a public document and the detail included in a case study. The helpful challenge and comments provided has assisted Surrey Fire and Rescue Service in producing this draft.

4.4 Staff engagement

- a. It is important that our staff are fully aware of the plans we are proposing and we have engaged in a number of ways with them ahead of the consultation period. We have issued a joint communication with the Fire Brigades Union to highlight the key issues in the draft PSP, briefed leaders in the organisation to enable them to answer questions from staff and engaged with staff on Yammer. Group Commanders and Assistant Group Commanders have received briefings, as has the Staff Council.

4.5 Member Reference Group

- a. A subgroup of the Resident Experience Board have met together as a cross-party Member Reference Group. This Group was set up to act as a sounding board and provide a Member steer as the project progresses and the refreshed PSP is developed. It has also questioned and challenged officers about the changes being considered and assisted in ensuring that the refresh is as comprehensive as possible.

5. FINANCIAL AND VALUE FOR MONEY IMPLICATIONS:

5.1 Surrey Fire and Rescue Service achieved efficiency savings of £4.8m between 2010/11 and 2015/16. Within the 2016/21 Medium Term financial plan there are a further £5.9m of required savings for the service to achieve.

5.2 The plan focuses on providing an efficient and effective service, matching resources to risk and predicted demand. By collaborating with other emergency service partners and other relevant agencies, we will be able to provide a more efficient and effective service without having to reduce frontline service delivery.

5.3 Section 151 Officer commentary:

- a. The PSP looks out to 2025, a period in which the financial climate and risks will change, and therefore needs to be flexible enough to ensure that the service can adapt as required.
- b. The plan describes the approach the service intends to take in order to meet future savings requirements, whilst still delivering an effective Fire and Rescue service. There is a particular emphasis on collaboration with other blue light services in order to achieve this.

6. EQUALITIES AND DIVERSITY IMPLICATIONS:

- 6.1 In considering the PSP, members must have due regard to the need to advance equality of opportunity for people with protected characteristics, foster good relations between such groups, and eliminate any unlawful discrimination. These matters are dealt with in the equalities paragraphs of the report and in the attached equalities impact assessment. The assessment attached is based on the proposals being consulted on, and may need to be revised if there are any amendments to the PSP as a result of the consultation. If any changes in service delivery are necessary to implement the PSP, a further, specific equalities impact assessment will be carried out.
- 6.2 Valuing and promoting equality and diversity are central to the work of the Surrey Fire and Rescue Service (SFRS). The ability to protect the public through fire safety advice, fire prevention, fire protection and emergency response depends on understanding the differing needs of the diverse communities and responding appropriately to those needs.
- 6.3 The refreshed PSP has no negative impact on service delivery compared to the current level of service received by any particular protected group. All future proposed policy changes will require separate EIAs looking into the potential impacts on service delivery and any consultation and engagement activities will enable us to inform and further develop these EIAs.
- 6.4 The draft Equality Impact Assessment can be viewed by following the link under Consultation Documents towards the end of this document.

7. LOCALISM:

- 7.1 There are no proposals which impact on communities at present as this is an overarching plan. The plan proposes certain work to be carried out, individual areas of which may require further public consultation with affected communities.

8. OTHER IMPLICATIONS:

Area assessed:	Direct Implications:
Crime and Disorder	No significant implications arising from this report.
Sustainability (including Climate Change and Carbon Emissions)	Set out below.
Corporate Parenting/Looked After Children	No significant implications arising from this report.
Safeguarding responsibilities for vulnerable children and adults	Set out below.
Public Health	Set out below.

8.1 Sustainability implications

The Civil Contingencies Act 2004 places a legal duty on all emergency services to carry out risk assessments in their area. Significant risks are recorded on the Surrey Community Risk Register. We have to assess the risk of major emergency incidents such as flooding, derailments, major spillages, fires, chemical incidents, civil unrest, terrorist attacks and flu pandemics.

8.2 Safeguarding responsibilities for vulnerable children and adults implications

Surrey experiences relatively low numbers of fatalities and injuries from fires. Our challenge is to continue to reduce these small numbers and this means the accurate targeting of those who are most vulnerable. We must also maintain our contribution to the reduction of casualties associated with road traffic collisions and will continue to focus on young drivers. We recognise that we also have an important part to play in improving the life chances for young people, so we deliver a number of other effective prevention activities.

8.3 Public Health implications

Increase integration and meaningful collaboration with other emergency services to assist them to respond to an increasing demand for services, where we can improve community safety and public health, and add value. We continue to educate the public through community safety campaigns and the Safe and Well Visit. Our Safe and Well Visit is designed to cover fire safety, road safety, environment safety and by using the One Stop Surrey referral process, cover a range of health and social issues that support independent living. We also supply a range of equipment, like smoke alarms, hard of hearing alarms, fire retardant bedding and advise on TeleCare alarms and sprinklers. We are continuing to work with the Surrey Health and Wellbeing Board members, such as Adult Social Care, the NHS, public health and Age UK Surrey, to develop the content of our Safe and Well Visits to reduce risk to the elderly.

9. CONCLUSION AND RECOMMENDATIONS:

- 9.1 Surrey Fire and Rescue Authority welcomes the views of local committees in shaping its future plans.

RECOMMENDATION:

The Local Committee (Reigate & Banstead) is asked to note:

- (i) the report and make any comments about the draft Public Safety Plan which they would like to be taken into consideration as part of the consultation analysis. We encourage all councillors and members of the public to respond to our [online consultation survey](#) before the deadline of 7 June 2016.

10. WHAT HAPPENS NEXT:

- 10.1 The public consultation opened on 27 April 2016 and will close on 07 June 2016.
- 10.2 Surrey Fire and Rescue Service will then consider the feedback received from the public and stakeholders and will make any revisions necessary to the draft PSP.
- 10.3 A final version of the PSP will be submitted to the Resident Experience Board on 30 June 2016 for scrutiny and will then be presented to Cabinet on 19 July 2016 for final approval.
- 10.4 Following the online publication of the final PSP at the end of July 2016, plans for carrying out the work outlined in the document will be developed and communicated to staff.
