Expression of Interest (Max 500 words)	<p>As a regular user of the canal, the two boats operated by our charity provide, cruising possibilities and holidays for about 600 disabled people, their carers and families during a typical year.</p> <p>We have many volunteers in our ranks who possess a huge range of business and boating skills. The charity has operated on the Basingstoke canal for over 30 years and has a wealth of knowledge that we would like to share and extend using this forum as the means to do that.</p> <p>All our volunteers have a firm commitment to see the charity continue to operate and the canal to become more commercially viable. A position on this committee would help us to contribute to those aims and also be beneficial for existing members as we provide representative feedback regarding the facilities and future requirements needed on the canal by the disabled sector.</p>
