

CABINET MEMBER FOR TRANSPORT AND ENVIRONMENT

The Petition

To help stop excessive helicopter noise over the county from non essential flights.

Surrey is regularly overflowed by noisy commercial and private helicopters, causing serious environmental health issues. The Civil Aviation Authority will not act. The vast majority of these flights are non-essential leisure and commuting trips. Affected residents in Surrey have had enough. We call on Surrey County Council to raise this issue at the highest level, and insist on protection for its residents from this extremely unpleasant and intrusive noise pollution.
