5. The County Planning Authority notes the use of Clacket Lane Services as a holding area for delivery vehicles to the site (as stated within the 'Outline Construction and Environmental Management Plan' dated 18/12/2017) and has no objection to this in principle but would remind the applicant that vehicles using that facility should not enter or exit the M25 at this point. Vehicles should access the site from the M25 via Junction 6 only.
