6 December 2018

Surrey Child and Adolescent Mental Health Update

Purpose of the report:

The Surrey Child and Adolescent Mental Health (CAMHS) Whole System Transformation Plan, updated October 2018, is presented for approval by the Surrey Health and Wellbeing Board.

Recommendations:

1. The Health and Wellbeing Board is asked to
 - a. Approve the refreshed Surrey CAMHS Whole System Transformation Plan (2018)
 - b. Note the Summary written by Surrey's young people and the impact of this transformational work demonstrates on the outcomes and experience for children and young people.
2. CCGs are asked to ensure that the refreshed Plan is published on their websites

Introduction:

1. The emotional wellbeing and mental health of children and young people has been identified as a priority for Surrey. Surrey Clinical Commissioning Groups (CCGs) and Surrey County Council jointly targeted Child and Adolescent Mental Health Services (CAMHS). Surrey CCGs commission Specialist CAMHS Services.
2. CCGs commission further services, using CAMHS Transformation Funding, received from NHS England. The Transformation Plan attached sets out how this funding is used to develop local services to meet the needs of children and young people in Surrey.
3. Services include early intervention and prevention work with schools, expansion of the Eating Disorders service and the development of co-ordinated crisis response services, such as the innovative Children and

Young People's Havens. Since the last refresh the transformation plan has enabled the expansion of the Children and Young People's Haven from one, to four thereby continuing to improve our response to children and young people in crisis.

4. The Community Eating Disorders services have also responded effectively to the introduction of the Access and Waiting Times Standard (NHS England 2015) improving and increasing access to the service.
5. A workforce planning tool kit has been commissioned to develop and plan the future work force strategy. With an outline strategy already in place all NHS and non-NHS providers/partners are being further encouraged to populate the tool to enrich data. Work on the full strategy is planned for the coming year.
6. Achieving the MH access target continues to be a challenge for Surrey. The main challenge faced especially by 3rd sector/independent organisations is the lack of access to a Health and Social Care Network to flow data. This is now being addressed by commissioning an external consultant to support organisations to flow data and capture all activities to achieve current and future targets.

Surrey CAMHS Transformation Plan

7. The Surrey Children's Commissioning team, hosted by NHS Guildford and Waverley CCG, have led the development of the Surrey CAMHS Transformation Plan.
8. Partners and stakeholders have contributed to the Transformation Plan, with input from members of the CAMHS Transformation Board, Surrey Children's Clinical Leads, CAMHS Strategy Group, Family Voice, CAMHS Youth Advisers (CYA) and others. NHS England was also consulted, to ensure the Plan provides the information needed to meet national requirements
9. CYA produced an Executive Summary, also attached, which sets out, in the words of the young people themselves, the impact of this transformational work on their outcomes and experience
10. NHS England asks that the CAMHS Transformation Plan is published on all CCG websites.

Conclusions:

11. The emotional wellbeing and mental health of children is a priority for Surrey. The CAMHS Transformation Plan sets out how the improvement of services, which began with the new contracts, funded by CCGs and Surrey County Council in 2016, is being further expanded and transformed.
12. The authors of the CAMHS Transformation Plan would like to thank all partners, particularly CYA, for their contributions to the plan and its delivery.

Next steps:

Further updates on progress will be provided within future reports from the Surrey Children's commissioners to the Health and Wellbeing Board dates.
