| <ol style="list-style-type: none"> 1. Ensure climate change is at the centre of the work we do through organisation-wide integration of climate change practices supported through training and engagement. 2. Be zero carbon across our organisational emissions by 2030. 3. All SCC's electricity delivered through a green energy supplier by 2020. Switch energy suppliers to a green tariff for gas. 4. Ensure the council's vehicle fleet will be zero emissions in the medium term. 5. Introduce a zero emission bus fleet across Surrey by 2030 6. We will use our procurement practices and influence across our supply chain to require and incentivise environmentally responsible commissioning 7. Work with pension funds and other investors to divest from fossil fuels and increase investment in energy efficiency, renewable energy, low carbon transport and low carbon heat solutions. 8. Work with staff to drive behavioural changes that help reduce business emissions, for example, reducing mileage travelled in private transport. | <ol style="list-style-type: none"> 9. Commit to set long term targets (five-years) to reduce both the County's Scope 1, and 2 emissions, and measure and report on these annually 10. Commit to measure and report Scope 3 emissions annually, with an ambition to consider approaches to reduce or offset. 11. Establish effective engagement practices to ensure our strategy is co-designed and delivered with partners, businesses and residents across Surrey. 12. Continue to push for national level action to redirect investments and introduce market mechanisms that deliver changes that avoid negative outcomes for residents and help to support informed choices 13. Improve our communications and engagement on climate change to support ongoing changes in resident behaviour e.g. travel choices, dietary choices and build public acceptance 14. Improve public transport links and active travel infrastructure to reduce car use. 15. Further develop our EV strategy to enable electric transport with infrastructure and incentives 16. Work towards all new developments being zero carbon and leaving the natural environment and biodiversity in a better state than before. 17. Develop a land-use strategy for Surrey focused on increasing green spaces, woodland cover in line with national targets and sustainable farming practices. 18. Develop our approach to engaging residents and businesses to refocus on reducing consumption and production of waste as a priority, supported by increased reuse and recycling. |
