Efficiency	Proposals

Libraries and cultural services transformation	A new strategy and service model will be implemented for libraries and cultural	£'000
transformation	convisor oncuring a more officient use of our asset hase and increased income	800
	services ensuring a more efficient use of our asset base and increased income generation. This model and approach differs from our current model by	
	increasing the focus on sharing spaces to ensure they are genuinely cost- effective.	
Short Breaks	Better utilisation of short breaks block contract to reduce spend on spot	300
	purchasing.	300
Care Leaver Packages	Reduction on supported accommodation spot purchase expenditure through	200
Ũ	better utilisation of the block contract.	
Contact Services	Review of contact service to ensure delivery of court ordered contact.	250
Reduction in SEND reserve	Proposed plans for delivering sustainability for the High Needs block require	3,101
	some further analysis and ratification. The Council is currently matching the	
	DSG HNB overspend of £29m to create an offsetting reserve. As a result of	
	these proposals the contribution in 20/21 will be reduced to \pm 24m.	
Reduction in SEND reserve	Proposed plans for delivering sustainability for the High Needs block require	2,000
	some further analysis and ratification. The Council is currently matching the	
Reunification Project	Review of existing cases to understand if children should remain in care or	200
	return home	
Early Help Transformation –	This is the ongoing impact of the remodelling of Children's Centres to create	2,400
Children's Centre	Family Centres which was undertaken in 19/20. The overall efficiency for this	
reconfiguration	programme was £3.4m.	
Early Help Commissioning –	Efficiencies are linked to reductions in contracts for services delivering Early	100
budget reduction for 20/21	Help. The previous fragmented approach of small grants to a variety of	
	organisations produced little evidence of impact. We are therefore moving to a	
	Lead Provider model which is expected to generate efficiencies in line with the	
	recommendations of the Children's Commissioner.	
Commercialisation	Increased income expected from Registrars / Civil Ceremonies due to a revised	300
	fee structure and expanded service offer.	
Surrey Outdoor Learning &	Increased turnover from additional activities and fee inflation.	200
Development		
Income	Charging schools for work to support transfer to Academy status based on the	128
	cost incurred by the Council, thus removing the burden from the Council tax	
	payer.	
Clinical Commissioning Group	CCG funding for Services that SCC are paying 100% for which should be funded	2,000

Sexual health demand	Increased expenditure on sexual health out of area assessments and treatment. This	220
	is the main area of Public Health service expenditure that is not subject to fixed	
	contracts. Surrey residents are entitled to get their sexual health service from	
	anywhere in the country. When they do so in areas outside of the county, SCC is	
	charged. The estimated pressure is based on the historical trend.	
Pay inflation	Pay inflation has been calculated based on a 2% year on year uplift to salaries. The	60
	cost of incremental pay progression has not been included. Services will need to	
	manage the impact of incremental pay progression within their budget envelopes.	
Sexual health contracting	Genitourinary medicine (GUM) contract extension from April 2020.	11
Recharge pressure	Estimated increase in recharge of SCC corporate overheads to the Public Health	25
	service.	
Pharmaceutical Needs	Wasn't completed in 2019/ 20 as every 3 years.	3

Reduction to the planned delivery of the Children's Dental Health	We will work closely with Dental Public Health colleagues to ensure we contribute to the understanding of dental need. We will work closely with Dental Public Health colleagues to fund a more cost-effective targeted approach to reducing dental decay	5
Epidemiology Survey	in the most vulnerable children.	
Family Weight Management contract efficiencies	Commencement of new Family Weight Management Contract with Active Surrey	21
Substance Misuse Efficiencies	Efficiencies related to the integrated Substance Misuse service	36
Commissioning changes	Change in commissioning model for the Babcock budget as staff member has been brought in house and is now included under salaries and the commissioning budget removed	50
Staffing efficiencies	This will mean deleting an existing vacancy from the current structure and reallocation of work to ensure core functions are maintained.	92
Review of Stop Smoking service	Currently stop smoking services are provided in 3 ways - a contract SCC has commissioned with a community provider, Public Health Agreements with GPs and Public Health Agreements with Pharmacies. The proposal is to cease the Public Health Agreements with GPs and Pharmacies, and instead focus all activity through the main community contract. GPs and Pharmacies will then refer people into the community contract. This will streamline the provision of stop smoking services, releasing cashable efficiencies in the process.	115

Pay Inflation	Pay inflation has been calculated based on a 2% year on year uplift to salaries. The cost of incremental pay progression has not been included. Services will need to manage the impact of incremental pay progression within their budget envelopes.	1,391
Non-Pay Inflation	Non-pay inflation has been calculated based on 2% for spot care packages plus any fixed inflation commitments built into block contracts.	7,425
Care package commitments higher than the 2019/20 budget	The ongoing net care package expenditure pressure above the 2019/20 budget that it is estimated will need be addressed by achieving efficiencies in 2020/21. This excludes the full year effect of new Transition clients in 2019/20 which is included in the pressure for new Transition cases from Children, Families, Learning and Culture services set out separately below.	6,150
New Transition cases from Children, Families, Learning and Culture services (CFLC) services	Based on current activity levels it is estimated that a pressure of £5m per year will arise representing the in-year cost of new cases that join in that year and the remaining full year cost of new cases from the previous year. This pressure may reduce in future years based on the success of actions planned through ASC's and CFLC's transformation programmes.	5,000
Increased staffing costs for ASC's Transition team	Funding of the ongoing costs of additional staff in ASC's Transition team initially funded through the All Age Learning Disability transformation programme.	581
Increased Better Care Fund income for ASC	Additional investment in Adult Social Care from 2019/20 BCF revised funding now part of BCF base.	-2,451

Older People care package efficiencies	Efficiencies planned to be delivered through ASC's Practice Improvement programme. This excludes the efficiencies planned to be achieved through the expansion of affordable extra care housing which will also be achieved against the Older People care package budget.	4,635
Physical & Sensory Disability care package efficiencies	Efficiencies planned to be delivered through ASC's Practice Improvement programme.	1,593
Strategic shift for people with Learning Disabilities from residential care to independent living	Efficiencies estimated through moving people with Learning Disabilities from institutional residential care homes to independent living care settings. This relies on creating additional independent living capacity across Surrey which is being managed through ASC's Accommodation with Care & Support programme.	800
Learning Disability and Autism care package efficiencies	Efficiencies planned to be delivered through ASC's Learning Disability and Autism transformation programme. This covers the whole Learning Disability care package budget including the Transition 18-25 year old cohort. The efficiencies planned to be achieved through moving people from residential care to independent living are excluded which will also be achieved against the Learning Disabilities care package budget are excluded from the Efficiencies targets here.	4,639

Non-Pay Inflation	Inflation on external contracts including highways maintenance, waste management and local bus contracts.	3,525
Strategic Transport Review - policy change not pursued	The budget assumed that transport efficiencies would be made in 2019/20 from Q4 onwards. The decision not to proceed with policy changes has led to a pressure.	1,612
Changes at Community Recycling Centres (CRCs) not progressed	The budget assumed that changes at CRCs would deliver efficiencies in 2019/20. The decision not to proceed with those changes has led to a pressure.	633
Street lighting private finance initiative (PFI) contract changes (one- off)	Changes to the street lighting PFI contract were expected to generate a one-off efficiencies in 2019/20, which needs to be replaced by new efficiencies from 2020/21.	1,382
Bus Service Operator Grant (BSOG) partially one-off	The 2019/20 budget includes use of the accumulated historical BSOG surplus, £1.9m, which is one-off. Offset against this, if the grant continues to be received then £0.8m can be released to support service provision.	1,060

Street lighting energy (on-going from 2019/20)	Conversion of street lights to LED will be implemented over 3+ years and energy efficiencies are expected to grow accordingly.	373
Concessionary fares volumes (On-going from 2019/20)	The volume of concessionary journeys has reduced in recent years, and this trend is expected to continue.	600
Countryside estate income/visitor economy	Developing the countryside offer to include events, concessions, and other income generation e.g. from catering.	125
Reduce waste management costs	Reduce waste management costs through a combination of incentivisation (including review of financial transfers to D&Bs) and recycling/minimisation campaigns, including reprioritising Surrey Environmental Partnership activities.	500
Network Management	To support the Council's environmental aims and encourage sustainable modes of transport there will be a review of the network management mechanisms and delivery models across the county. Phase 1 will include implementation of the revised parking Policy, with some consequent increases in income. Work is under way to identify options to deliver the remaining efficiencies.	668
Highway enforcement	Additional enforcement, e.g. bus lane camera enforcement, will help to ensure bus journeys are more reliable thereby supporting sustainable transport choices. Additionally, lobby government to enact legislation to allow other moving traffic violations (box junctions, banned turns, no entry etc.) to be enforced, supporting improvements in congestion management.	200

Non-pay Inflation	An assumed RPI increase, where uplift is RPI, or an increase based on the terms	116
	stipulated within contracts	
Cross Directorate	Non-achievement of 19/20 efficiencies. Additional efficiencies which were to be	1,007
	identified during 2019/20 have not been realised and therefore there is an	
	ongoing pressure as a result.	
Customer Services	Channel shift/customer experience efficiencies have not been realised as quickly	500
	or at the levels initially anticipated.	
Strategic Leadership	Funding of Integrated Health Posts	333
Spans & Layers	Staffing efficiencies have been realised in other Directorates due to the	500
	implementation of spans and layers principles, this efficiency assumed that some	
	central costs would be reduced and this is yet to be realised.

Interest Payable	Despite increased capital expenditure funded by borrowing, the	927
	commercial investment portfolio is on hold, reducing the requirement for	
	borrowing, whilst short-term borrowing rates have reduced. This has	
	resulted in a lower financing costs in 2020/21, with an increase in future	
	years, as the capital programme accelerates.	
Pension Strain	Due to organisational changes, as a result of transformation, the pension	1,000
	strain has reduced resulting in a reduction in the provision.	
Pension Contribution -	The draft actuarial valuation includes a forecasted reduction in the SCC	2,000
Triannual valuation	contribution rate. The Council's funding level, calculated at the actuarial	
	valuation, is 93%, which is an improvement from the last valuation in	
	2016/17.
