

Community Infrastructure Levy

Application for funding

This form must be used for all applications for Community Infrastructure Levy (CIL) funds. This includes projects decided by Spelthorne Borough Council or the Spelthorne Joint Committee.

Completed applications must be sent with a location plan of the project and any other supporting explanatory material to: Planning Policy, Council Offices, Knowle Green, Staines-upon-Thames, TW18 1XB.

Evidence for all bids must be supported by clear and robust information. All the following questions must be answered. You are welcome to seek further guidance on the likely eligibility of a project and information required from the Borough Council by emailing planning.policy@spelthorne.gov.uk.

|--|---|
| 3. Detailed description of the proposal. | |
| Purchase, installation and commissioning of a 450mm size speed limit reminder vehicle-activated sign (VAS), to be erected on a lighting column in D6283 Chertsey Road, Shepperton. | |
| 4. Any project for CIL funding must be for capital expenditure. Please confirm that your application is for capital spending only. | |
| Yes. | |
| 5. Would your proposal help alleviate in some way the impact of further development within Spelthorne? | |
| | |
| 6. Financial Information: | |
| a. Total cost of the project? | £2,645.57 |
| b. Amount of CIL funding required? | £2,645.57 |
| c. Amount and source of any other funding? | £0 |
| d. Other funding sources pursued but not secured? | 1 Surrey Safety Camera Partnership (Drive Smart) 2 Spelthorne Local Committee 3 Surrey County Council (SCC) Integrated Transport Schemes (ITS). |
| 1 Reason why no alternative funding sources are possible? | 1 Regular speed enforcement isn't currently being carried out. 2 and 3. Current budgets are fully allocated. |
| 7. Timescale of the project: | |
| a. Proposed start date: | Between April 2021 and March 2022. |
| b. Proposed completion date: | If CIL funds are secured, purchase orders will be issued and the works should be carried out around 6-8 weeks afterwards. |
| c. Where CIL funding only represents part of the costs of your project would that money be required after a particular phase of the project? If so, when? | CIL funding represents 100% of the full project cost. |
| 8. Implementation: | |
| a. Which organisation will implement the proposal? | SCC has carried out the feasibility study and will order the works, using two established suppliers. |

[Type here]

| | |
|--|---|
| b. Will it have authority to do so, including any agreements to undertake work on public land? | Yes. All works will be carried out on SCC Highways land. |
| c. Experience of the implementing organisation to delivery of projects of the scale and nature proposed? | SCC have progressed in excess of 500 similar projects throughout the county over the last 19 years. |

9. Information to demonstrate by reference to costs and benefits that the proposal represents good value for money and there is a compelling case for approval.

The lighting column pre-wiring preparation works (£145.57) will be carried out by SCCs street lighting contractor. The supply, installation and commissioning of the VAS (£2,500) will be carried out by SCCs preferred, long time supplier (of 19 years). In accordance with SCC procurement rules, we carry out price comparisons with other established VAS manufacturers on similar terms and conditions.

10. Information by reference to a project plan and project management arrangements that the proposal is deliverable.

1 – The pre-wiring of the lighting column will be carried out by SCCs street lighting contractor, Skanska in accordance with their established working procedures.
2 – Once the pre-wiring is completed, the VAS manufacturer, Westcotec will erect the VAS onto the lighting column in accordance with their established working procedures, including BS 7671 (as amended).

11. Explain how any on-going maintenance costs will be met.

The vehicle-activated sign is supplied with a six-year warranty as standard, which covers parts and labour. There is a central VAS maintenance budget, which has been used to coordinate VAS maintenance since 2010. The pre-wiring in the lighting column is covered by the street lighting maintenance contract.

12. Do you consider there are specific policies, strategies, priorities or initiatives of either Spelthorne Borough Council or Surrey County Council that this scheme may assist in implementing? If so, please explain what they are.

Section 38 of the 1988 Road Traffic Act states that local authorities have a duty carry out a programme of measures to promote road safety. Speed surveys carried out in April 2019, showed that vehicle speeds were in excess of the 30mph speed limit. VAS installed in the optimum locations, have a proven record of reducing vehicle speeds and the likelihood of accidents.
