

Annex 3: Roads not progressed

This document sets out a list of roads where we received a request for new or amended parking controls, however we have not recommended changes there as part of this review. Please note, some roads have multiple requests at different parts of the road, or perhaps different requests at the same part of the road, therefore it is possible that a road will appear in this list but also appear within recommendations in Annex 1.

Locations are listed in electoral county division and then by town where appropriate.
