

Tandridge parking review 2021/22 – Annex 3

In the list below are roads where we received one or more requests for changes to the parking restrictions that were assessed and considered not a high enough priority to be taken forward at this time. There are locations where different requests were made for the same road, and consequently some roads will feature both in this list and in Annex 1. While every effort has been made to ensure this list is as accurate as possible, there may have been locations that do not appear in this list due to the fact that it was considered along with a nearby road during the assessment.
