

Surrey County Council
Stewardship Code Statement

Principle 1: Institutional investors should publicly disclose their policy on how they will discharge their stewardship responsibilities.

Surrey County Council (the Fund) takes its responsibilities as a shareholder seriously and has made a commitment to the informed exercise of its ownership rights as set out in its Statement of Investment Principles.

Principle 2: Institutional investors should have a robust policy on managing conflicts of interest in relation to stewardship and this policy should be publicly disclosed.

The Fund expects its fund managers to have effective policies addressing potential conflicts of interest. In respect of conflicts of interest within the fund, Pension Fund Board members are required to make declarations of interest prior to panel meetings.

Principle 3: Institutional investors should monitor their investee companies.

Day-to-day responsibility for managing the Fund's equity holdings is delegated to our appointed fund managers and the fund expects them to monitor companies, intervene where necessary, and report back regularly on activity undertaken.

The Fund actively votes all its equity holdings directly and liaises with the fund managers as necessary.

Principle 4: Institutional investors should establish clear guidelines on when and how they will escalate their activities as a method of protecting and enhancing shareholder value.

Responsibility for day-to-day interaction with companies is delegated to the Fund's investment managers, including the escalation of engagement when necessary. On occasion, the Fund may itself choose to escalate activity; this will typically be through our membership of the Local Authority Pension Fund Forum (LAPFF). When this occurs, the Pension Fund Board will typically take a minuted vote on the decision whether to participate in the proposed activity.

Principle 5: Institutional investors should be willing to act collectively with other investors where appropriate.

The Fund seeks to work collaboratively with other institutional shareholders in order to maximise the influence that it can have on individual companies. This is achieved through our LAPFF membership, together with initiatives proposed by our investment managers or other advisors.

Principle 6: Institutional investors should have a clear policy on voting and disclosure of voting activity.

The Fund aims to exercise all votes associated with its equity holdings and operates a custom policy which reflects the Fund's investment objectives. Fund officers are responsible for voting decisions and are supported by specialist proxy research.

On a general basis, the Fund will support resolutions which are consistent with the UK Governance Code and represent best practice. In overseas markets, we will take account of local best practice principles. Where resolutions or issues fall short of the expected standards, we will either abstain or vote against, depending on the individual circumstances of the company and the issues presented.

The policy is reviewed at least annually in order to take account of regulatory developments. Controversial issues may be discussed at Pension Fund Board meetings.

Principle 7: Institutional investors should report periodically on their stewardship and voting activities.

The Fund reports on its stewardship activity to the Pension Fund Board and employer member representatives at the Annual Meeting where members have an opportunity to ask specific questions.

In addition, quarterly reports of voting actions are posted on the Fund's website.
