

Surrey Safeguarding Adults Board

Annual Report 2012 – 2013

Foreword

In June 2013 I was pleased to accept the appointment as the new Independent Chairman of the Surrey Safeguarding Adults Board. As one of my first tasks I am pleased to introduce our Annual Report for 2012-2013.

This report gives us the opportunity of demonstrating the Board's fulfilment of its role in relation to safeguarding policy and how it has responded to safeguarding alerts and referrals through the management information shared with the Board. During this year the Board has focused on the delivery of the three year Strategic Plan that we implemented at the beginning of 2012. This plan sets out the Board's activities set against the six national principles of safeguarding, namely:

- ❖ Empowerment
- ❖ Protection
- ❖ Prevention
- ❖ Proportionality
- ❖ Partnership
- ❖ Accountability

The Strategic Plan was drafted with reference to national priorities, high level strategic goals identified by Board members in February 2012, the views of service users and carers, Management Information and actions from the previous year's Work Plan that we wished to continue or that needed to be evaluated.

I am delighted to present this report to you and look forward to the challenges and opportunities that the new year brings us as we move towards Safeguarding Adults Boards becoming statutory.

1 National Context

The Statement of Government Policy on Adult Safeguarding issued in May 2011 identifies its objective as, *'to prevent and reduce the risk of significant harm to adults at risk, from abuse or other types of exploitation whilst supporting the individual in maintaining control over their lives and in making informed decisions without coercion'*.

Safeguarding Adults Boards are not currently statutory, unlike Safeguarding Children's Boards. Surrey has chosen to have a Safeguarding Adults Board since 1999 as a reflection of the importance we place on safeguarding vulnerable adults. The government is expected to make Safeguarding Adults Boards statutory in the Care Bill. This welcome change is expected to come into effect in early 2015 and will place the safeguarding of vulnerable adults on an equal footing to vulnerable children.

This year has brought ever greater prominence to safeguarding adults. The Serious Case Review into the abuses occurring at Winterbourne View hospital in Gloucestershire was published in July and the Department of Health published the Concordat in December. A new definition of Domestic Violence and Abuse was set by the Home Office. The new Disclosure and Barring Service was established in December. In February 2013 the Final Francis Report was published, identifying key failings at mid-Staffordshire Foundation Trust. Health and Wellbeing Boards were established in preparation for them becoming a statutory requirement in April 2013. The Department of Health embarked on the consultation on a new safeguarding power in relation to the entry of premises and reports were published setting out the reform of Social Care following the Dilnot Commission report.

2 Local Context

- The population has increased by over 73,000 in the past 10 years.

An adult at risk of harm may be a person who has mental health problems. The Surrey Safeguarding Adults Multi-Agency Procedures, Information and Guidance represent the commitment of organisations in Surrey to work together to safeguard people with mental health problems and other adults at risk with the aim that:

- the needs and interests of adults at risk are always respected and upheld
- the human rights of adults at risk are respected and upheld
- a proportionate, timely, professional and ethical response is made to any adult at risk who may be experiencing abuse
- all decisions and actions are taken in line with the Mental Capacity Act 2005

Surrey and Borders Partnership NHS Foundation Trust provides the health and social care services for people with mental health problems, drug and alcohol problems and learning disabilities across Surrey. The Trust is a partnership organisation and has a formal partnership agreement with Surrey County Council to ensure integrated health and social care is provided to respond to the needs of the whole person. The Trust's Working Age Adult Mental Health, Drug and Alcohol and Forensic Community Teams are Integrated Health and Social Care Teams and act on behalf of the Local Authority. Surrey and Borders Partnership NHS Foundation Trust sit on the Board, the Business Management Group and on each of the sub-groups.

In addition, the Surrey Safeguarding Adults Multi-Agency Procedures, Information and Guidance sets out the support available for adults who have a mental health problem. This includes the circumstances when the police should call for an appropriate adult to support a vulnerable adult with a mental health problem who is going to be interviewed, It includes the use of an Independent Mental Capacity Advocate (IMCA) who will represent and support the person where there is a decision to be made in relation to serious medical treatment provided by the NHS or a move into long-term care. It also includes guidance on the use of Deprivation of Liberty Safeguards (DoLS). DoLS apply to people who have a mental health problem and who do not have mental capacity to decide whether or not they should be accommodated in the relevant care home or hospital to be given care or treatment. The Multi-Agency Procedures are agreed by all Board members and are available on the Board's webpages.

Every year, Adult Social Care submits data to the Department of Health on key safeguarding activities. This is known as the Abuse of Vulnerable Adults data. The safeguarding process begins with an alert being made to Adult Social Care. The alert is assessed by the receiving Locality Team to determine the response required. Where the concerns meet the threshold of intervention, the alert will progress to a referral.

More information is available in the Board's Multi Agency Procedures published on the Surrey County Council website. See: <http://www.surreycc.gov.uk/social-care-and-health/adult-social-care/protecting-adults-from-harm/safeguarding-resources-helpful-information-from-non-surrey-safeguarding-adults-board-sources/safeguarding-adults-multi-agency-procedures-and-protocols>. All Board member agencies are signed up to use these procedures.

Not all Councils collect data on alerts. Surrey does collect this data. Whilst national data for this year is not yet available, we can make comparisons based on previous year's national data. For the 99 councils who submitted data on alerts in both 2010-11 and 2011-12, the number of alerts has increased by 24 per cent (23,000 alerts). This could indicate either a rise in the reporting of safeguarding incidents and/or a rise in harm taking place. Feedback from these councils indicated there have been a number of changes, including delivering additional training, that has raised awareness of safeguarding. Planned awareness campaigns have increased the knowledge of safeguarding awareness within communities. The Department of Health report these factors may have contributed to the rise in alerts during the 2011-12 reporting period.

The Surrey Safeguarding Adults Board has been undertaking activities to increase awareness of safeguarding both with professionals and with the public, this, together with a new way of recording alerts may have contributed to the increase in the number of alerts being made. In December 2012 and January 2013 the Board distributed 30,000 copies of the new 'Keeping you Safe' leaflet and 800 posters to all Adult Social Care Teams, GP Surgeries, Community Hospitals, Dentists, District and Borough Councils, Libraries, Voluntary Organisations, Police, Surrey Fire and Rescue Service and Pharmacies. The Board also produced a new 'Keeping you Safe' DVD for public awareness and made it available to view on the Board pages of the Surrey County Council website and on YouTube. This featured four different scenarios of people and the abuse they had experienced to help residents recognise abuse and know how to make a referral. Since the DVD was published on 24 January 2013 there have been 273 views of the DVD on YouTube this year. The Surrey Safeguarding Adults Board page where the DVD is hosted has received 835 page visits between January and March 2013.

This may have contributed to an increased number of alerts being received as people are better informed of safeguarding and how to raise a concern. It does not necessarily indicate there are a greater number of safeguarding incidents occurring.

Definitions used in the Abuse of Vulnerable Adults Data

- **Alert** - An alert is the first contact between a person concerned about the alleged harm to a vulnerable adult to Adult Social Care
- **Referral** - Where an alert is considered to meet the safeguarding threshold
- **Repeat Referral** - A repeat referral is a safeguarding referral where the vulnerable adult involved has previously been the subject of a safeguarding referral about a different incident and both of these referrals were in place during the same reporting period.
- **Completed Referral and Uncompleted Referral** - A completed referral is where an investigation has been undertaken, all evidence has been assessed, a conclusion and outcomes have been agreed and the case has been closed. There will be some investigations that start at the end of the reporting year and these are recorded as 'uncompleted referrals'.

Case conclusions

The 'case conclusion' is the record of the result of the investigation, i.e. whether the allegation has been substantiated or not substantiated, or lacks the evidence to make a decision either way. Decisions around whether an allegation did or did not happen are based on the civil standard of proof, that is, on the balance of probabilities.

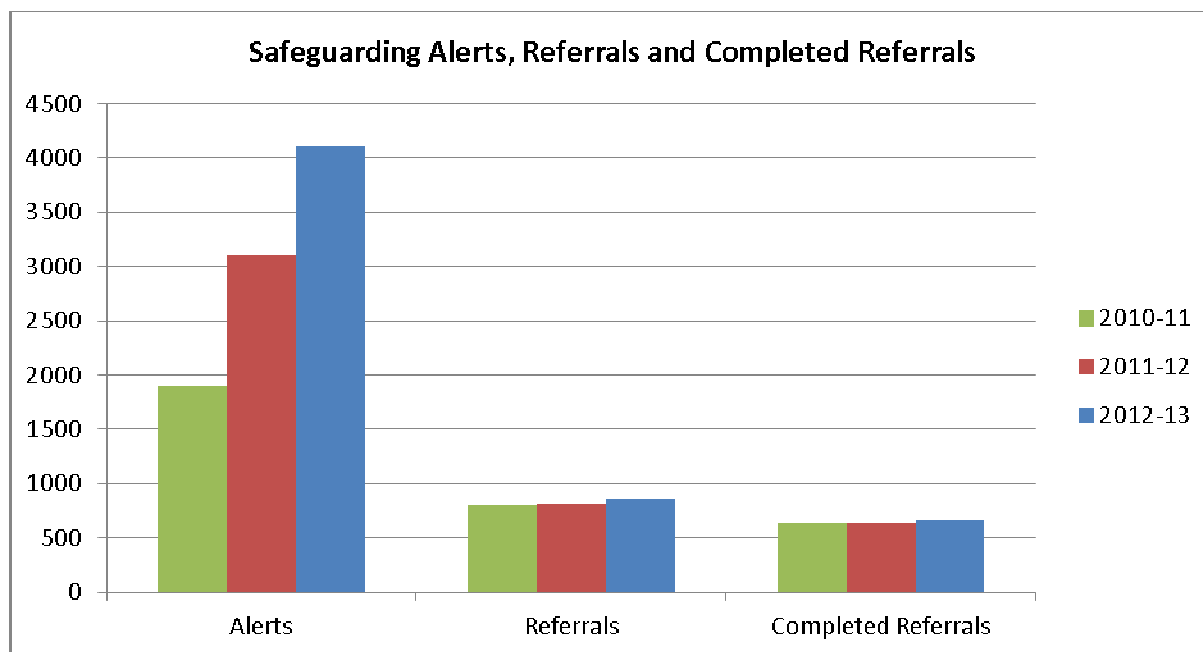

- **Substantiated** - If allegations of abuse can be proven on the balance of probabilities then the case conclusion will be recorded as 'Substantiated'.
- **Partly Substantiated** - If some, but not all, allegations of abuse can be proven on the balance of probabilities then the case conclusion will be recorded as 'Partly Substantiated'.
- **Not Substantiated** - If the allegation of abuse has been disproven on the balance of probabilities then the case conclusion will be recorded as 'Not Substantiated'.
- **Not Determined / Inconclusive** - If an investigation could not reach a conclusion as to whether the allegations are true or false on the balance of probabilities, then the case is recorded as 'Not Determined / Inconclusive'. Referrals are also recorded as Not Determined / Inconclusive where the investigation is stopped before it is fully completed. Examples of when this may happen are:
 - If there is not enough reliable evidence to show whether the allegations are true or false.
 - If the only evidence found during the investigation was one person's word against another.
 - If while investigating a referral the alleged perpetrator passes away before making a statement then the investigation might not be continued. In this case the referral will be recorded as 'Not Determined / Inconclusive'.
 - If while investigating a referral the alleged victim requests that the matter is not pursued then the referral will be recorded as 'Not Determined / Inconclusive'.

5 Priorities

At the beginning of 2012 the Board agreed a new three year Strategic Plan that set out the vision and the priorities to be implemented. This plan was set against the six national safeguarding principles. Below is a summary of achievements in delivering the plan in 2012-2013 and the priorities for the next year.

As a result both professionals and members of the public are more aware of safeguarding vulnerable adults and who to contact if they have a concern. The new materials are designed to be more attractive to reflect the preventative role of safeguarding.
- Four newsletters published containing safeguarding news from the Board together with national safeguarding news and resources. As a result professionals and members of the public have been kept informed of Board activity and the latest news, policies and resources in safeguarding vulnerable adults.

The vast majority who registered the use of the sticker were in the over 60s age group. Those who have registered also receive a quarterly Newsletter.

6 Serious Case Reviews

The Board has a Serious Case Review sub-group chaired by the Detective Chief Inspector at Surrey Police's Public Protection Investigation Unit. The group considers referrals made following a death, a life threatening injury or other serious incident involving an adult at risk where it is believed there have been failings, or there are suspected failings by more than one agency involved in caring for the adult (as defined by the Surrey Multi-Agency Safeguarding Adults procedures). This is with a view to establishing what learning can be identified by implementing a review process.

In considering such cases, the SCR group will request and review information held by each agency to determine if there appears to have been any organisational failure. Each agency will provide a summary of their agency's involvement within two weeks of the request being made.

During the year, the group received eleven notifications of serious incidents that potentially were considered as to whether or not the criteria for a SCR were met. Following consideration of those notifications and further information requested by the group, four cases were taken forward and a recommendation made to the chair of the Board for a Serious Case Review to be undertaken. These recommendations have been accepted and the Reviews are in currently in progress. When the Reviews are completed they will be presented to the Board and placed on the Surrey Safeguarding Adults Board webpages.
