7 March 2024	Process Scrutiny	Discharge to Assess (ASC/NHS/Surrey Care Association Process, Winter Out comes, Impact of Care Reform, Costs).	The Select Committee will review and scrutinise the effectiveness of discharge to assess processes and measures taken to address funding challenges, as well as consider the changes with funding post-Covid.	The Select Committee will scrutinise the details and focus on frequent visitors to A&E. High intensity A&E attendances account for a major depletion of resources. Scrutiny	Cancer & Elective Care Backlogs (TBC)	The Committee will review evidence to ensure that the increasing volume of diagnostic capacity now coming online is supporting the most pressured cancer pathways. The Committee wants to ensure that the NHS in Surrey continues to recover elective services inclusively and equitably. This will enable those in the community to thrive and will help to lessen the gaps of health inequalities.	The Committee want to review improvements and scrutinise the adjusted approaches to the outpatient system. To scrutinise the engagement between providers and patients and review the improvements to re-focus capacity towards new patients. The committee want to scrutinise improvements in the delivery of more elective care to tackle the elective backlog, reduce long waits and improve performance against cancer waiting times standards and review developments for ICBs who must prioritise Community Diagnostic Centres (CDCs) and acute diagnostic capacity to reduce cancer backlogs and improve the faster diagnosis standard. Review of current data to ensure that the most urgent mental health needs are understood and understand what is being delivered within the county to support the most vulnerable people within the community. To encourage a better outlook for them, enabling them to improve their opportunities in life with support from the Fund.
