9

2. Executive summary

A summary of the areas of focus of the **Frimley ICP** and **Frimley ICB**.

3. Recommendations

The recommendation to the Board is to note the content of the report.

4. Reason for Recommendations

There no approvals required for the Board.

The content of the report does include discussion points that could be explored further at future meetings.

5. Detail

IC Strategy Refresh & Integrated Care Partnership

Working continues in preparation for the next meeting of the Integrated Care Partnership in March 2024. Our work is continuing on a refresh to the design and operation of the Integrated Care Partnership in the Frimley system. The design group is working closely with the current ICP Co-Chairs and Directors of Public Health from across the geography, including Surrey, to determine how best the ICP can operate during 2024/25. The ICP will continue to focus the on the effective discharge of its core three functions:

- (1) To provide oversight and approval of the IC Strategy creation process and the impact of its delivery
- (2) To provide a formal environment for the consideration of the wider determinants of our residents health outcomes
- (3) To help nurture and evolve our shared vision and values as partner organisations and local leaders

We are committed to working with the Health and Wellbeing Boards to ensure that there is a stronger connection between the ICP and the Health and Wellbeing Boards, as well as the Joint Strategic Needs Assessments which are led by the Public Health teams.

The March 2024 ICP is taking a singular focus on Obesity, the wider causes of Obesity and the role that the whole public and third sector partnership can take in addressing the wider determinants of this condition.

Joint Forward Plan

We have now completed the first refresh of the Frimley NHS Joint Forward Plan for the period of 2024 – 2029, for which we are required by legislation to publish by 31st March 2024. The NHS organisations in Frimley which oversee the production of this document have worked together on reassessing our priorities for the year ahead and how these

interventions will deliver the improvements required under our overarching strategy. The refreshed Joint Forward Plan is awaiting governance approval from the NHS organisations inside the Frimley partnership.

The Frimley Integrated Care System published its first Joint Forward Plan on 30 June 2023:

<https://frimleyhealthandcare.org.uk/media/5087/final-frimley-ics-nhs-joint-forward-plan-2023-2028.pdf>

This plan, which covers the period 2023 – 2028, is the first document which brings together the totality of the NHS transformation focus for the forthcoming five year period. The plan is a statutory requirement of the Health and Care Act (2022) which came into lawful effect on 1st July 2022.

This Joint Forward Plan is fully aligned with the IC Strategy and it outlines how the local NHS will contribute to achieving our shared goals and priorities. In particular, the Joint Forward Plan describes how the NHS will work in partnership together to meet our headline strategic objectives of reducing health inequalities and increasing healthy life expectancy.

Alongside this, we are currently in the process of definition the Annual Operational Plan for 2024/25 which sets out the detailed plans for how the partnership will achieve its priorities in the next year of implementation. It includes specific actions, targets and milestones for each of the priority areas identified by our local partnership. It represents many of the “year ahead” actions of the Joint Forward Plan, although it should be noted that the latter is more ambitious and expansive than the national minimum planning requirements for the year ahead. The Joint Forward Plan also provides a longer-term perspective on how the NHS will evolve its services and workforce over the next five years, to support the achievement of the ICS priorities in the longer term.

Public Health Interface

We are continuing to implement the new collaborative model between the three Directors of Public Health in the Frimley System and the ICB CTO, CNO and CMO. Initial indications are that this new way of working is proving effective and creating greater alignment between the statutory and strategic functions of the five Local Authorities and the NHS as partner organisations across the Frimley geography.

ICB Operating Model and Partner Engagement Process

In February, the ICB shared the final version of its proposed restructure to staff within the organisation. This final version was heavily influenced by the feedback received during the consultation period with staff, and the engagement period which was established to hear the views of our partners. The ICB would like to acknowledge and thank all those who took the time to share their views and suggestions for how the ICB can operate most effectively as a high performing system partner.

6. Opportunities/Challenges

N/A.

7. Timescale and delivery plan

N/A.

8. What communications and engagement has happened/needs to happen?

N/A.

9. Next steps

- Note future ICS updates.
