

Health and Wellbeing Survey

July 2013

At our informal meeting on 4 July 2013, Surrey's Health and Wellbeing Board discussed a range of issues...

What we discussed

- Going digital / patient health records
- The Winterbourne Review stocktake for Surrey
- The Disabled Children's Charter for Health and Wellbeing Boards
- Surrey's Joint Health and Wellbeing Strategy priority: improving children's health and wellbeing

Who was there?

- Councillor Michael Gosling (co-chair) - Cabinet Member, Surrey County Council
Dr Joe McGilligan (co-chair) – Chair, East Surrey Clinical Commissioning Group
Helen Atkinson – Acting Director of Public Health, Surrey County Council
Caroline Budden - Deputy Director, Children's, Schools and Families, Surrey County Council
Dr Jane Dempster – North East Hampshire and Farnham Clinical Commissioning Group
Dr David Eyre-Brook – Chair, Guildford and Waverley Clinical Commissioning Group
Councillor James Friend – Deputy Leader, Mole Valley District Council
Dr Claire Fuller – Clinical Chair, Surrey Downs Clinical Commissioning Group
Emma Harewood – Interim QIPP* Programme Manager, Surrey Heath Clinical Commissioning Group
Dr Liz Lawn – Chair, North West Surrey Clinical Commissioning Group
Sarah Mitchell – Strategic Director of Adult Social Care, Surrey County Council Borough Council
Kathy O'Leary - Head of Policy, Development & Property, Reigate and Banstead Borough Council
Jane Shipp – Healthwatch Surrey
Dr Andy Whittfield – Chair, North East Hampshire and Farnham Clinical Commissioning Group
Justin Newman – Health & Wellbeing and Innovation lead, Surrey County Council
Eleanor Robb – Health and Wellbeing Programme Manager, Surrey County Council
- Health and Wellbeing Surrey**

* QIPP – Quality, Innovation, Productivity and Prevention

Going digital / patient health records

Presented by: Lucie Glenday, Programme Director Superfast Broadband (Surrey County Council)

What did we cover?

Lucie provided the Board with an update regarding the steps the County Council is taking to give Surrey 99.7% coverage for fibre broadband, to develop/enhance digital skills where necessary and to use digital technology to support public service transformation.

Lucie described how this approach could be used to integrate patient health records.

The Winterbourne Review stocktake for Surrey

Presented by: Jo Poynter, Senior Manager, Adults Social Care (Surrey County Council)

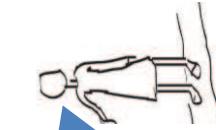

Surrey has more people with learning disability per head of population than anywhere in northern Europe.

What is the Winterbourne View stocktake?

NHS England and the Local Government Association have established a Joint Improvement Programme following the publication of the final report on events at Winterbourne View Hospital.

The aim of the Programme is to work with local areas to make sure services are personalised, safe and local – the purpose of the stocktake is to enable local areas to assess progress against commitments made national, to identify where any support is required from the Joint Improvement Programme and to share best practice.

What was the outcome of the discussion?

The Board supported the approach Lucie described and asked her to continue her dialogue with Clinical Commissioning Groups to develop and refine options, and scope costs.

The Board signed off the local stocktake submission for Surrey which showed overall the County had made good progress in ensuring people with learning disabilities in Surrey are receiving care which is personalised, safe and local.

Health and Wellbeing Surrey

Improving children's health and wellbeing

Presented by: Dr David Eyre-Brook, Lucy Botting (Guildford and Waverley Clinical Commissioning Group)
 Caroline Budden, Kelly Morris, Jo Holtom (Surrey County Council), Dr Charlotte Canniff (North West Surrey Clinical Commissioning Group), Diane McCormack (Children's Commissioning lead for Clinical Commissioning Groups)

What did we cover?

The leads for the 'improving children's health and wellbeing' priority facilitated a workshop for the Board which covered: children's health needs across Surrey; key themes which should be explored further; and beginning to generate ideas for improving children's health and wellbeing.

And if we get it right?

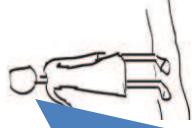

Surrey's Joint Health and Wellbeing Strategy describes the outcomes we'll achieve if we get this priority right:

- More babies will be born healthy
- Children and young people with complex needs will have a good, 'joined up' experience of care and support
- More families, children and young people will have healthy behaviours
- Health outcomes for looked after children and care leavers will improve
- More children and young people will be emotionally healthy and resilient

Three themes were selected for group discussions - these were:
 healthy behaviours; mental health and emotional wellbeing; and A&E admissions and out of hours services.

What was the outcome of the discussion?

It was agreed that the leads would take the outputs from the session and work with partners to refine into proposals to bring back to the Board for approval on 5 September 2013.

Children and young people (CYP) don't tend to have one risky behaviour they have multiple.

Prevention is a the common theme throughout the emerging topics.

Some groups of CYP are more likely to experience inequalities such as looked after children, however it is not just certain groups of CYP, geographical inequalities exist too.

Further themes / areas of focus for the 'improving children's health and wellbeing' will be discussed at the informal business meeting of the Board on 1 August 2013.

The Disabled Children's Charter

What is the Disabled Children's Charter for Health and Wellbeing Boards?

The Charter has been developed to support Health and Wellbeing Boards to meet their responsibilities towards disabled children, young people and their families, including children and young people with special educational needs and health conditions.

What was the outcome of the discussion?

The Board was asked to note the 'Disabled Children's Charter for Health and Wellbeing Boards' and consider it throughout the discussions about the 'improving children's health and wellbeing' priority at today's and next month's Board meeting.
