<b>Develop the capacity and capability of our workforce to achieve outcomes for Surrey residents, creating a high performance culture and driving wholesale transformational change</b>	<b>HROD 08: Apprenticeship levy 12 months forecast spend (excluding schools)</b> (Good to be HIGH)	<b>76.56%</b> Sep 2020	<b>100%</b> Sep 2020	 <b>69.01%</b> Aug 2020		
	With the increase on starters in September, we have a 10.94% increase on the levy spend. We also continue our collaboration with Surrey Heartlands partners to explore rotational apprenticeships and levy transfer opportunities.					
	<b>HROD 07: Apprenticeships as % of workforce</b> (Good to be HIGH)	<b>0.5%</b> Sep 2020	<b>2.30%</b> Sep 2020	 <b>0.18%</b> Aug 2020		
	Our measures on workforce (like most councils) have suffered a great impact due to the Coronavirus pandemic. Recruitment of new apprenticeships and young people, who are amongst the worst hit by the global crisis, has been challenging for all. This has meant a slow start for 20/21, and now that conditions have normalised with the beginning of the new academic year, we have had a healthy increase on the number of apprenticeships in Q2; which is now 215% higher than Q1, with 41 new starters at end of September. To assist with apprenticeship vacancies across sectors, the government continues with the 'Plan for Jobs' strategy, which provides financial support to businesses to enable the appointment of more apprentices, and presented initiatives such as: (i) Incentive payments for employers who hire an apprentice between 1 August 2020 and 31 January 2021, and (ii) Additional £1,000 funding for 16-18 year olds/19-24 year olds with EHC Plans to help meet the extra costs associated with their hiring.					
	<b>HROD 01: Number of employees (FTE)</b>	<b>7083</b> Sep 2020	Target under review	<b>6969</b> Aug 2020		
The 1.64% increase of permanent workers across various Services is a positive reflection of our reduced reliance in our use of off payroll workers. In light of this, the target for this indicator is currently under review.

(Good to be HIGH)	<b>£15.7m</b> Sep 2020	<b>£24.3m</b> Full year target	↑ <b>£14.9m</b> Aug 2020	
	Transformation efficiencies are currently marked RED as a result of COVID-19 impacts, with 27% of the overall target at risk of non-delivery for this very reason. The TSU is working to maximise the efficiencies that can be achieved this year, though savings that cannot be met will factored in to the annual transformation programme refresh.

# Efficiency Programme – as at Month 6

**At M6, of the total £38.1m efficiency programme £3.9m are currently projected to be unachievable (black or grey):**

-£1.5m of ETI efficiencies are delayed or un-achieved: bus lane enforcement has been delayed to 21/22; changes to the treatment of the parking surplus are not now expected to happen; waste reductions have been impacted by Covid19; and conversion of street lights to LED is proceeding but contract changes were initially delayed

- £0.4m of efficiencies in Orbis have been flagged as unachievable due to CV-19.

- £2m undeliverable from joint placement reviews with health

- Any non-achievement of efficiencies within ASC is forecast to be mitigated by over-achievement against efficiencies for Learning Disabilities / Autism.
