

BCF 2020-21 Income & Expenditure Calculator

1. Guidance

Overview
Note on entering information into this template This template is intended to be used by local BCF planners to record locally agreed plans and ensure that minimum requirements on BCF funding sources are met (for instance the minimum contribution to social care from the CCG minimum). The template does not need to be submitted to the Better Care Fund Team, as plans for 2020-21 are not being assured. All areas will need to send a completed expenditure template as part of year end reporting and to confirm to their HWBs that the national conditions of the fund have been met;; so we recommend that you do complete this template in the next few weeks. Throughout the template, cells which are open for input have a yellow background and those that are pre-populated have a grey background, as below: Data needs inputting in the cell Pre-populated cells Note on viewing the sheets optimally For a more optimal view each of the sheets and in particular the drop down lists clearly on screen, please change the zoom level between 90% - 100%. Most drop downs are also available to view as lists within the relevant sheet or in the guidance sheet for readability if required. The details of each sheet within the template are outlined below.
Checklist (click to go to Checklist, included in the Cover sheet) 1. This section helps identify the data fields that have not been completed. 2. It is sectioned out by sheet name and contains the description of the information required, cell reference for the question and the 'checker' column which updates automatically as questions within each sheet are completed. 3. The checker column will appear 'Red' and contain the word 'No' if the information has not been completed. Clicking on the corresponding 'Cell Reference' column will link to the incomplete cell for completion. Once completed the checker column will change to 'Green' and contain the word 'Yes' 4. The 'sheet completed' cell will update when all 'checker' values for the sheet are green containing the word 'Yes'. 5. Once the checker column contains all cells marked 'Yes' the 'Incomplete Template' cell (below the title) will change to 'Complete Template'. 6. Please ensure that all boxes on the checklist are green before submission.
2. Cover (click to go to sheet) 1. The cover sheet provides essential information on the area for which the template is being completed, contacts and sign off. 2. Question completion tracks the number of questions that have been completed; when all the questions in each section of the template have been completed the cell will turn green.
3. Income (click to go to sheet) 1. This sheet should be used to specify all funding contributions to the Health and Wellbeing Board's Better Care Fund (BCF) plan and pooled budget for 2020-21. On selected the HWB from the Cover page, this sheet will be pre-populated with the minimum CCG contributions to the BCF, DFG (Disabled Facilities Grant), and iBCF (improved Better Care Fund) allocations to be pooled within the BCF. These cannot be edited. 2. Please select whether any additional contributions to the BCF pool are being made from Local Authorities or the CCGs and as applicable enter the amounts in the fields highlighted in 'yellow'. These will appear as funding sources when planning expenditure. The fields for Additional contributions can be utilised to include any relevant carry-overs from the previous year. 3. In March 2020, guidance on a revised Hospital Discharge Service Policy, backed with central funding, was published. Systems were advised to implement the enhanced discharge to assess services in this policy through a single lead commissioner (usually the local authority) and to pool the additional funding drawn down into a s75. Some areas pooled additional funding available from the Hospital Discharge Policy through the Better Care Fund agreement. If you wish to record this discharge funding in your Better Care Fund plan to reflect the content of your local s75 agreement, you can record this as an additional contribution. End of year reporting will not be required to include discharge funding. 4. Please use the comment boxes alongside to add any specific detail around this additional contribution including any relevant carry-overs assigned from previous years. All allocations are rounded to the nearest pound. 5. For any questions regarding the BCF funding allocations, please contact england.bettercarefundteam@nhs.net
4. Expenditure (click to go to sheet) This sheet should be used to set out the schemes that constitute the BCF plan for the HWB including the planned expenditure and the attributes to describe the scheme. This information will be required at year end to analyse BCF spending nationally, to contribute to national statistics and to provide assurance that National Condition 2 and 3 are met. The table is set out to capture a range of information about how schemes are being funded and the types of services they are providing. There may be scenarios when several lines need to be completed in order to fully describe a single scheme or where a scheme is funded by multiple funding streams (eg: iBCF and CCG minimum). In this case please use a consistent scheme ID for each line to ensure integrity of aggregating and analysing schemes. On this sheet please enter the following information: 1. Scheme ID: - This field only permits numbers. 2. Scheme Name: - This is a free field to aid identification during the planning process. Please use the scheme name consistently if the scheme is described across multiple lines in line with the scheme ID described above. 3. Scheme Type and Sub Type: - Please select the Scheme Type from the drop-down list that best represents the type of scheme being planned. A description of each scheme is available at the end of the table (follow the link to the description section at the top of the main expenditure table). - Where the Scheme Types has further options to choose from, the Sub Type column alongside will be editable and turn "yellow". Please select the Sub Type from the drop down list that best describes the scheme being planned. - Please note that the drop down list has a scroll bar to scroll through the list and all the options may not appear in one view. - If the scheme is not adequately described by the available options, please choose 'Other' and add a free field description for the scheme type in the column alongside. - While selecting schemes and sub-types, the sub-type field will be flagged in 'red' font if it is from a previously selected scheme type. In this case please clear the sub-type field and reselect from the dropdown if the subtype field is editable. 4. Area of Spend: - Please select the area of spend from the drop-down list by considering the area of the health and social system which is most supported by investing in the scheme. - Please note that where 'Social Care' is selected and the source of funding is "CCG minimum" then the planned spend would count towards National Condition 2. - If the scheme is not adequately described by the available options, please choose 'Other' and add a free field description for the scheme type in the column alongside. - We encourage areas to try to use the standard spend areas where possible. 5. Commissioner: - Identify the commissioning entity for the scheme based on who commissions the scheme from the provider. If there is a single commissioner, please select the option from the drop-down list. - Please note this field is utilised in the calculations for meeting National Condition 3. - If the scheme is commissioned jointly, please select 'Joint'. Please estimate the proportion of the scheme being commissioned by the local authority and CCG/NHS and enter the respective percentages on the two columns alongside. 6. Provider: - Please select the 'Provider' commissioned to provide the scheme from the drop-down list. - If the scheme is being provided by multiple providers, please split the scheme across multiple lines. 7. Source of Funding: - Based on the funding sources for the BCF pool for the HWB, please select the source of funding for the scheme from the drop-down list - If the scheme is funding across multiple sources of funding, please split the scheme across multiple lines, reflecting the financial contribution from each. 8. Expenditure (£) 2020-21: - Please enter the planned spend for the scheme (or the scheme line, if the scheme is expressed across multiple lines) 9. New/Existing Scheme - Please indicate whether the planned scheme is a new scheme for this year or an existing scheme being carried forward.
5. CCG-HWB Mapping (click to go to sheet) The final sheet provides details of the CCG - HWB mapping used to calculate contributions to Health and Wellbeing Board level non-elective activity figures.

^^ Link back up

Assistive Technologies and Equipment	Using technology in care processes to supportive self-management, maintenance of independence and more efficient and effective delivery of care. (eg. Telecare, Wellness services, Digital participation services).	
Care Act Implementation Related Duties	Funding planned towards the implementation of Care Act related duties.	
Carers Services	Supporting people to sustain their role as carers and reduce the likelihood of crisis. Advice, advocacy, information, assessment, emotional and physical support, training, access to services to support wellbeing and improve independence. This also includes the implementation of the Care Act as a sub-type.	
Community Based Schemes	Schemes that are based in the community and constitute a range of cross sector practitioners delivering collaborative services in the community typically at a neighbourhood level (eg: Integrated Neighbourhood Teams)	
DFG Related Schemes	The DFG is a means-tested capital grant to help meet the costs of adapting a property; supporting people to stay independent in their own homes.	
Enablers for Integration	Schemes that build and develop the enabling foundations of health and social care integration encompassing a wide range of potential areas including technology, workforce, market development (Voluntary Sector Business Development: Funding the business development and preparedness of local voluntary sector into provider Alliances/ Collaboratives) and programme management related schemes. Joint commissioning infrastructure includes any personnel or teams that enable joint commissioning. Schemes could be focused on Data Integration, System IT Interoperability, Programme management, Research and evaluation, Supporting the Care Market, Workforce development, Community asset mapping, New governance arrangements, Voluntary Sector Development, Employment services, Joint	
High Impact Change Model for Managing Transfer of Care	The eight changes or approaches identified as having a high impact on supporting timely and effective discharge through joint working across the social and health system. The Hospital to Home Transfer Protocol or the 'Red Bag' scheme, while not in the HICM as such, is included in this section.	
Home Care or Domiciliary Care	A range of services that aim to help people live in their own homes through the provision of domiciliary care including personal care, domestic tasks, shopping, home maintenance and social activities. Home care can link with other services in the community, such as supported housing, community health services and voluntary sector services.	
Housing Related Schemes	This covers expenditure on housing and housing-related services other than adaptations; eg: supported housing units.	
Integrated Care Planning and Navigation	Care navigation services help people find their way to appropriate services and support and consequently support self-management. Also, the assistance offered to people in navigating through the complex health and social care systems (across primary care, community and voluntary services and social care) to overcome barriers in accessing the most appropriate care and support. Multi-agency teams typically provide these services which can be online or face to face care navigators for frail elderly, or dementia navigators etc. This includes approaches like Single Point of Access (SPoA) and linking people to community assets. Integrated care planning constitutes a co-ordinated, person centred and proactive case management approach to conduct joint assessments of care needs and develop integrated care plans typically carried out by professionals as part of a multi-disciplinary, multi-agency teams. Note: For Multi-Disciplinary Discharge Teams and the HICM for managing discharges, please select HICM as scheme type and the relevant sub-type. Where the planned unit of care delivery and funding is in the form of Integrated care packages and needs to be expressed in such a manner, please select the	
Intermediate Care Services	Short-term intervention to preserve the independence of people who might otherwise face unnecessarily prolonged hospital stays or avoidable admission to hospital or residential care. The care is person-centred and often delivered by a combination of professional groups. Four service models of intermediate care are: bed-based intermediate care, crisis or rapid response (including falls), home-based intermediate care, and reablement or rehabilitation. Home-based intermediate care is covered in Scheme-A and the other three models are available on the	
Personalised Budgeting and Commissioning	Various person centred approaches to commissioning and budgeting.	
Personalised Care at Home	Schemes specifically designed to ensure that a person can continue to live at home, through the provision of health related support at home often complemented with support for home care needs or mental health needs. This could include promoting self-management/expert patient, establishment of 'home ward' for intensive period or to deliver support over the longer term to maintain independence or offer end of life care for people. Intermediate care services provide shorter term support and care interventions as opposed to the ongoing support provided in this scheme type.	
Prevention / Early Intervention	Services or schemes where the population or identified high-risk groups are empowered and activated to live well in the holistic sense thereby helping prevent people from entering the care system in the first place. These are essentially upstream prevention initiatives to promote independence and well being.	
Residential Placements	Residential placements provide accommodation for people with learning or physical disabilities, mental health difficulties or with sight or hearing loss, who need more intensive or specialised support than can be provided at home.	
Other	Where the scheme is not adequately represented by the above scheme types, please outline the objectives and services planned for the scheme in a short description in the comments column.
