

We know being active is one of the single most effective and sustainable ways to achieve the 2030 Vision for Surrey.

From better mental and physical health to social cohesion and a greener future, movement benefits us from the day we are born through to old age.

OUR COMMITMENT

For too long, people with the most to gain from being active have been the least able to take part. The pandemic has exacerbated Surrey's inequalities – such as those around socio-economic status, disability and ethnicity.

This strategy lays our commitment to working differently and confronting these inequalities head on.

WE LISTENED & LEARNED

DURING 2020/21 ACTIVE SURREY ENGAGED WITH COMMUNITIES AND PARTNERS, WITH A PARTICULAR FOCUS ON LESS ACTIVE GROUPS, TO EXPLORE HOW WE CAN COLLECTIVELY CREATE THE CONDITIONS FOR A MORE ACTIVE COUNTY

1

Analysis and review of current data and insight including Active Lives, Sport England Insight Briefings and SCC Covid Impact Assessment 2

Surrey wide physical activity survey with over 650 people

3

Held a physical activity summit with over 90 professionals and people with lived experience 4

Listened to particular inactive groups talk about their attitudes to being active

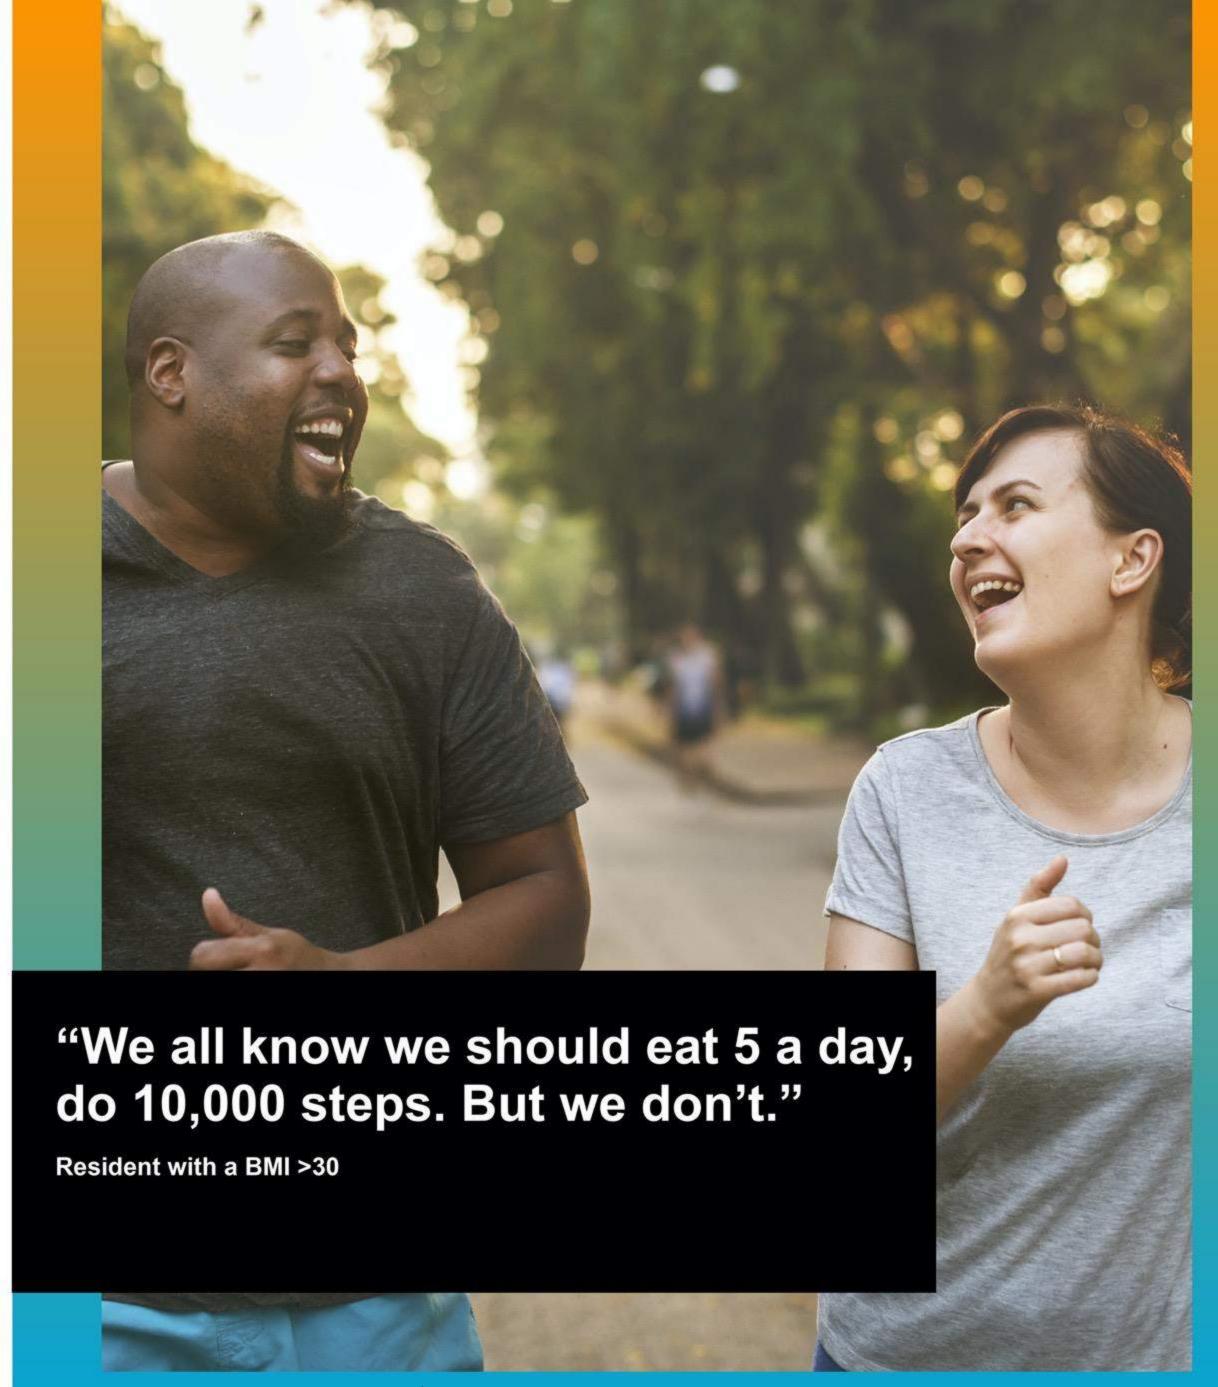

1

Shared draft survey for comment

HERE'S WHAT WE LEARNT WE ALL NEED TO MOVE MORE!

23% of the Surrey adult population are active for less than 30 minutes per week¹

COVID saw the numbers of regularly active people drop to their lowest levels on record

WEKNOWIT IS GOOD FOR OUR PHYSICAL HEALTH AND INCREASINGLY OUR WELLBEING TOO. WE RECOGNISE THE ROLE IT PLAYS IN A GREENER FUTURE FOR SURREY.

WHY MOVEMENT MATTERS

ENABLING A GREENER FUTURE

THOSE WHO SWITCH FROM DRIVING
TO WALKING FOR ONE TRIP PER DAY
REDUCE THEIR CARBON FOOTPRINT
BY C0.5 TONNES OVER A YEAR9

EMPOWERING COMMUNITIES

PHYSICAL ACTIVITY REACHES INTO THE PLACES WE LIVE, REDUCING SOCIAL ISOLATION, AND BUILDING A SENSE OF PRIDE AND BELONGING.

FOR EVERY £1 SPENT ON COMMUNITY SPORT AND PHYSICAL ACTIVITY, AN ECONOMIC AND SOCIAL RETURN ON INVESTMENT OF £4 IS GENERATED.8

PHYSICAL HEALTH

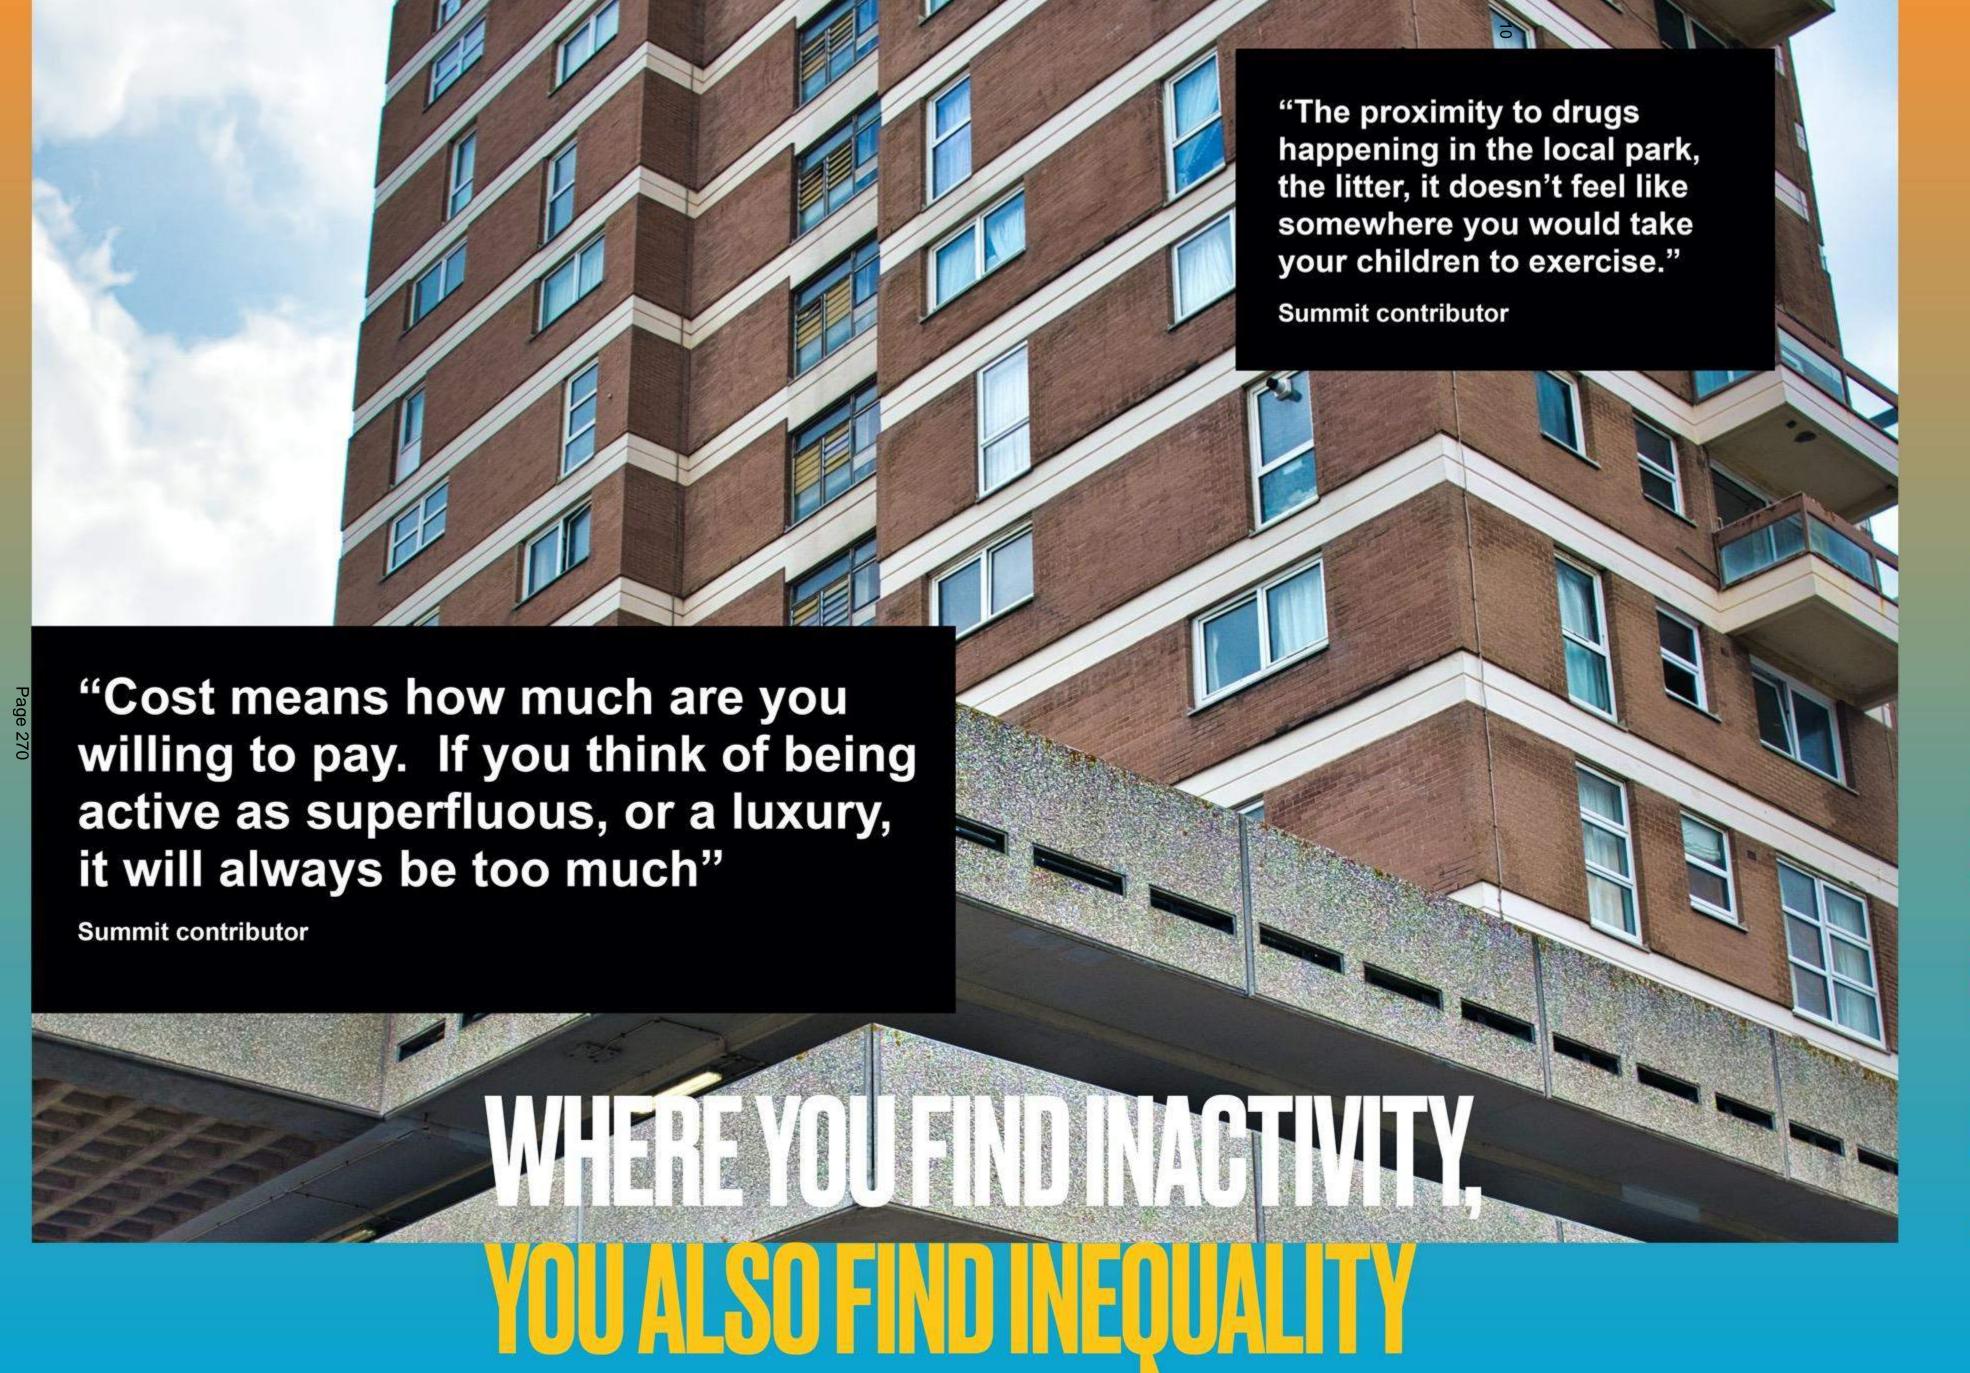

UP TO 50% LOWER RISK OF MANY LONG TERM HEALTH CONDITIONS INCLUDING TYPE 2 DIABETES, HEART DISEASE AND STROKE. 7

MENTALHEALTH

UP TO 30% LOWER RISK OF DEPRESSION AND DEMENTIA.7

GROWING A SUSTAINABLE ECONOMY

THERE IS A PROVEN LINK BETWEEN
TAKING PART IN PHYSICAL ACTIVITY AND
IMPROVED JOB OPPORTUNITIES.

28% of people from lower socioeconomic groups are inactive compared to only 13% of those in higher socio-economic groups.⁵

1 in 4 children leave primary school overweight or obese and children from lower socio economic groups are twice as likely to be obese or overweight.⁶

33% of people from Asian backgrounds are inactive compared to 19% of White British people.⁴

1 in 3 disabled people or people with long term health conditions are inactive.³

FINDING THE TIME, THE MOTIVATION, THE MONEY, THE PLACES OR EVEN THE SELF WORTH IS SO MUCH HARDER FOR SOME THAN OTHERS

"WE NEED TO RECOGNISE THAT PARENTS AND CARERS ARE EXHAUSTED AND SHORT ON MONEY, THIS IS A HUGE BARRIER TO GETTING CHILDREN OUT AND ACTIVE."

SUMMIT CONTRIBUTOR DISCUSSING FAMILIES WITH A CHILD WITH SEND

OUR COMMITMENT IS TO

RE-INTEGRATE MOVEMENT INTO EVERYONE'S LIFE

Tackling sedentary habits and creating environments which make being active easier

SHINE A SPOTLIGHT ON INEQUALITIES

Unashamedly focusing on those who will derive the most benefit from a more active lifestyle

IT DOESN'T MATTER WHAT GETS US MOVING

TOGETHER

United as a movement against inactivity and inequality – a whole system approach

Place based focus tackle the starkest inequalities

HOW WE SHOULD WORK

Listen first

CONNECTING AND EMPOWERING

'People like me' as role models and activators

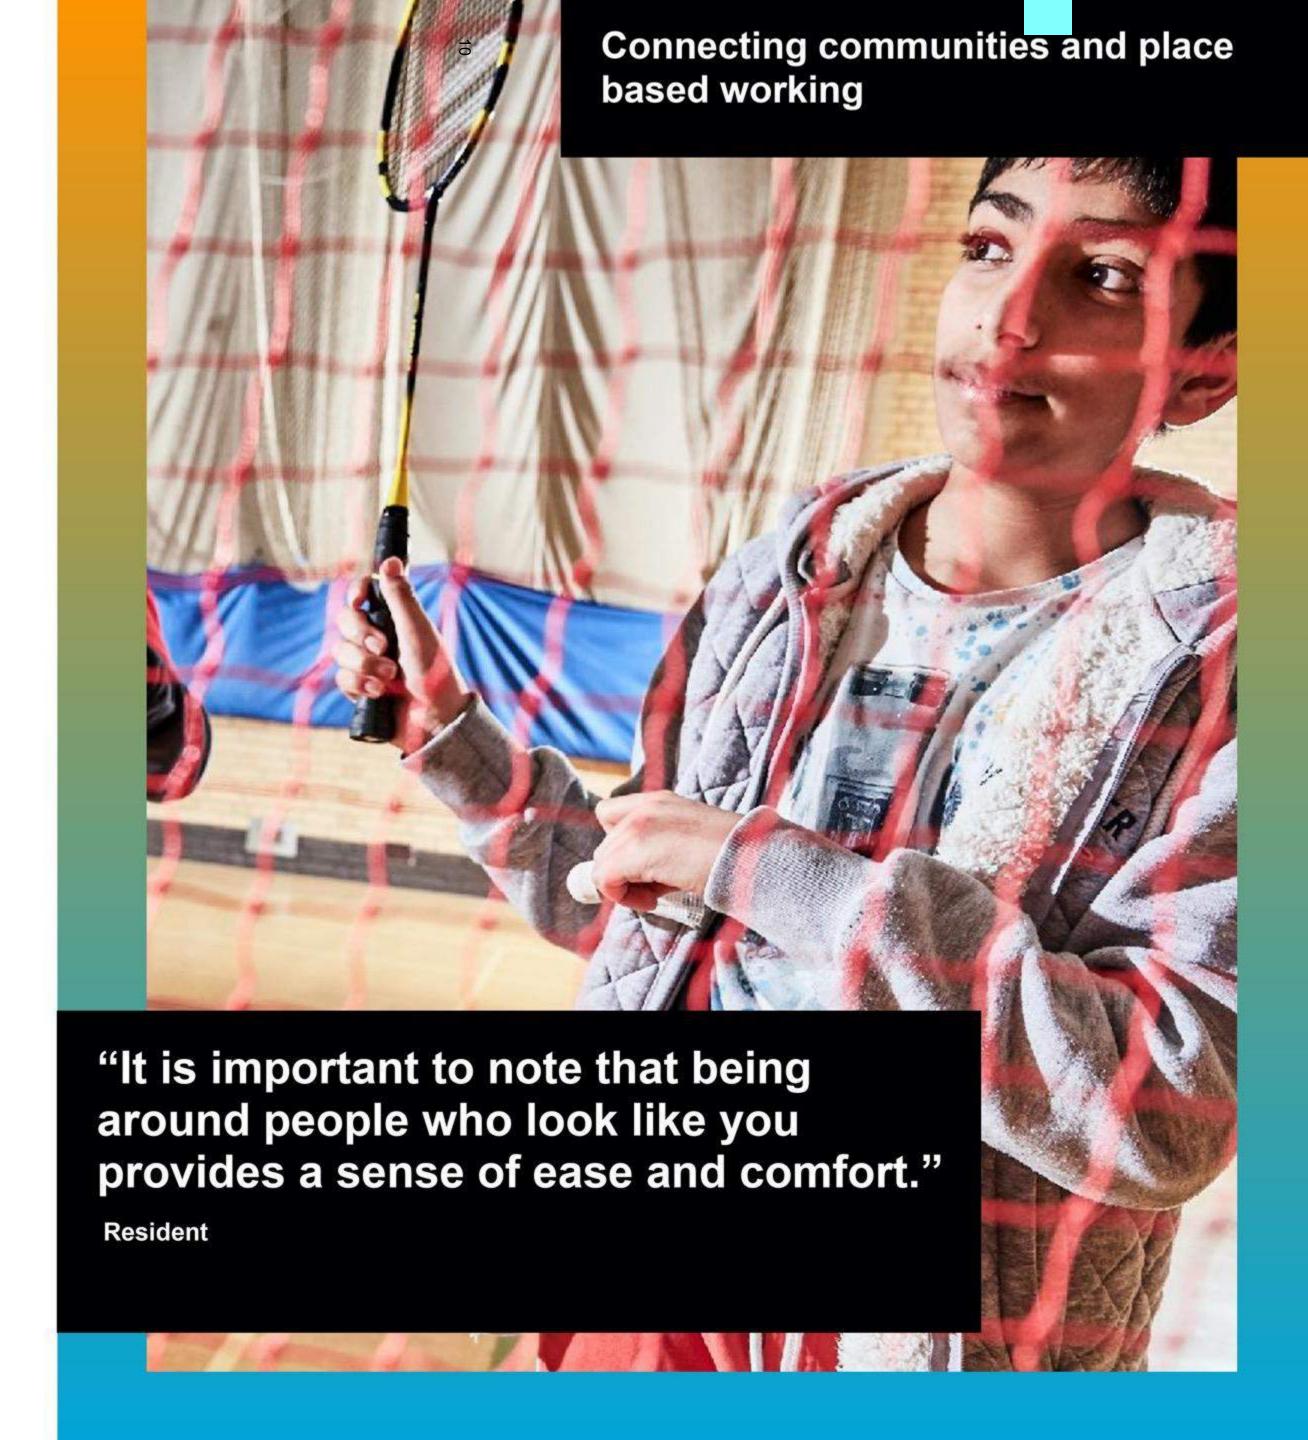

We want young people to enjoy being active and create the right foundations for a long, active and healthy life.

- Work with less active young people and their families including those with SEND and young people from a deprived background, to make being active more 'normal' and 'easy' for their family.
- 2. Embed physical activity across all aspects of school life including travel to school.
- Focus on the role of an active lifestyle to support young people's wellbeing.

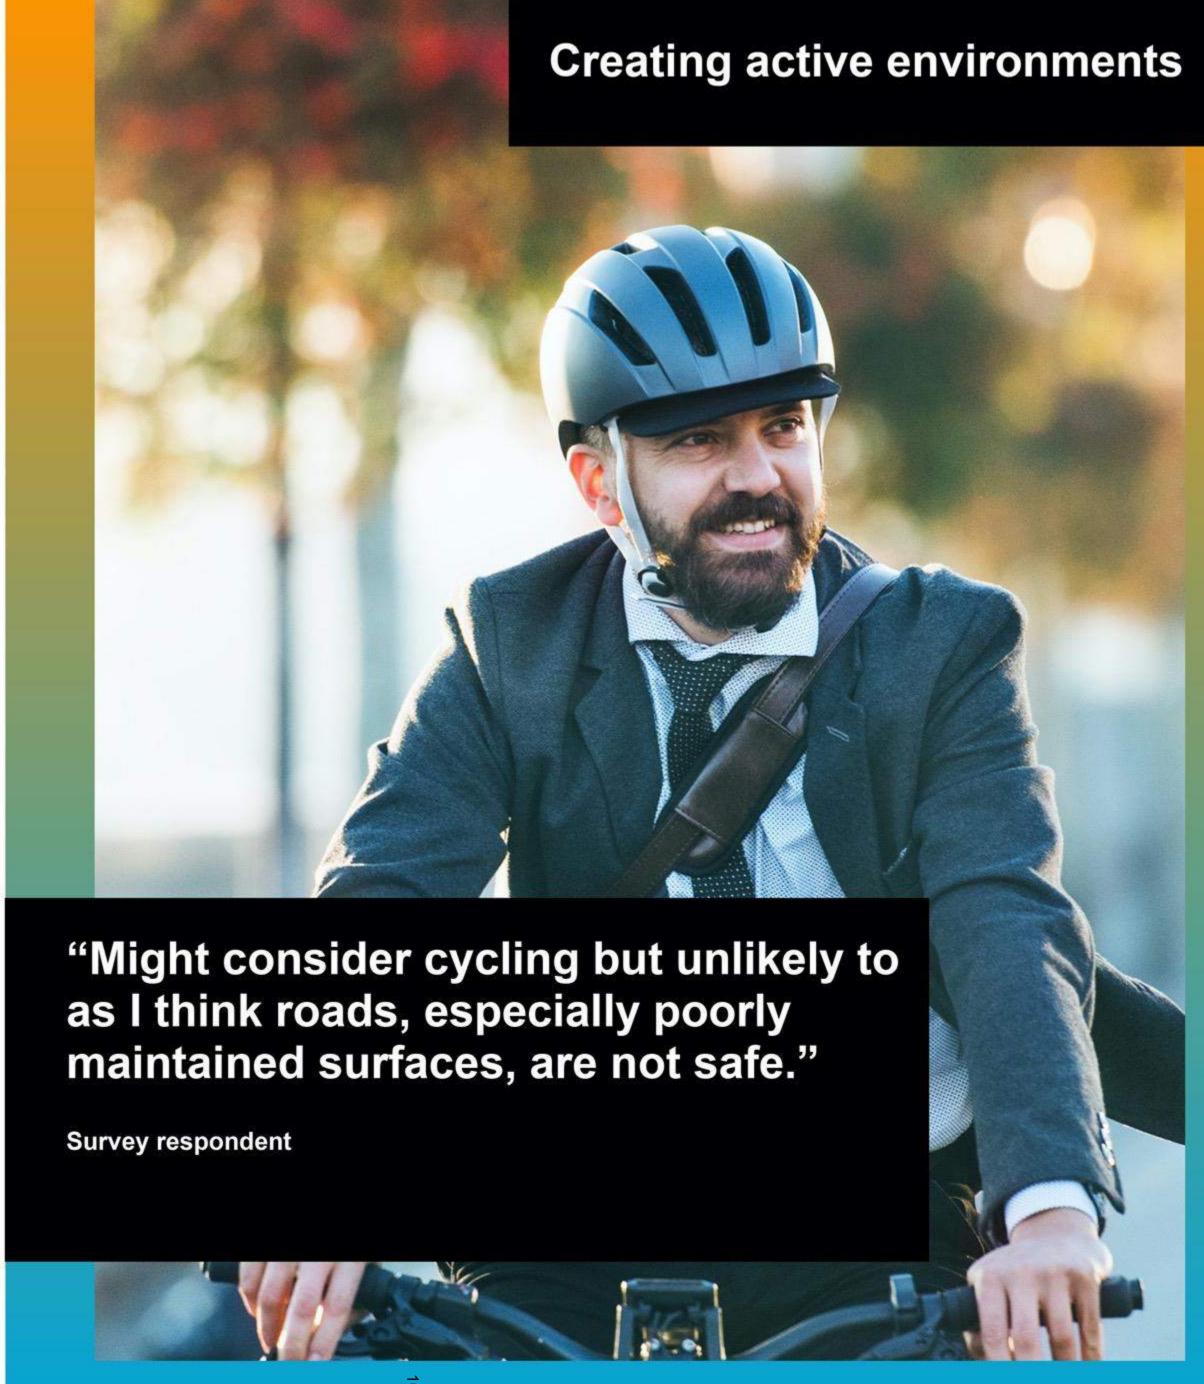

We want to better harness physical activity's unique ability to make better places to live and bring people together, particularly targeting where inequalities are greatest.

- Work <u>locally</u> with disadvantaged communities to better understand local barriers and enablers.
- Connect and enable local activators and community networks to inspire movement locally.
- Mobilise physical activity to reduce anti-social behaviour and improve community safety.
- 4. Focus on connecting underrepresented groups with local green spaces and opportunities to be active.

We need to create and protect the places and spaces that make it easier for people to be active.

- Focus on active travel encourage and enable a shift from cars being the mode of transport of choice for local journeys.
- Make it easier to be more active and less sedentary in the places we live and work.
- Ensure sport and physical activity provision is accessible (in its broadest sense) to inactive groups.

- Up-skill professionals to have more and better conversations about the connection between health and physical activity.
- Build on the awareness of physical activity's connectivity with wellbeing to support increased self care.
- Increase specific and targeted provision for people with long term health conditions or disabilities.
- Continue to focus on keeping active as you age and preventing falls.
- Continue to integrate physical activity into social prescribing and green social prescribing work.

Only by working together – with residents, volunteers, professionals, behind a shared purpose to tackle inactivity, can everyone in Surrey reap the benefits of a more active county.

BECAUSE WHEN WE MOVE, WE ARE STRONGER.

"THE ONE THING THAT HAS STAYED TRUE DESPITE UPS AND DOWNS IS THE FEELING I GET AFTER BEING ACTIVE. YOU FEEL GOOD. YOU JUST FEEL GOOD THAT YOU'VE DONE SOMETHING"

RESIDENT
