Pressures

		0000/00	0000/04		essure	0000/07	T (1)
Pressure	Description	2022/23 £m	2023/24 £m	2024/25 £m	2025/26 £m	2026/27 £m	Total £m
2021/22 care package carry forward pressure	This pressure represents the extent to which full year care package commitments are higher than the 2021/22 budget prior to the impact of efficiencies planned to reduce commitments in the remainder of 2021/22. Pressures are driven primarily by the impact of the pandemic including increased levels of need and the hospital Discharge to Assess system introduced during the pandemic. These factors have significantly increased the average costs of care across all client groups, and there has also been a rise in the number of people requiring support following a reduction during the pandemic. The pandemic has also hindered the ability to deliver some of the 2021/22 budgeted efficiencies.	18.1	0.0	0.0	0.0	0.0	18.1
Pay inflation and other staffing pressures	Budgeted pay inflation for Adult Social Care staff, including the impact of the higher National Insurance contributions due to government's planned Health & Social Care Levy, plus a number of other smaller changes to ASC's staffing budgets.	4.0	1.7	1.8	1.9	1.9	11.2
Price inflation (care packages & contracts)	The budgeted cost of price inflation planned to be paid to care providers across all of the care packages and contracts that Adult Social Care funds. This factors in confirmed and estimated changes to the National Living Wage and general inflation. Price inflation accounts for over 50% of ASC's total budgeted pressures.	11.5	11.4	12.9	13.3	13.2	62.3
Care package demand	The estimated cost of young people transitioning each year from Children's, Families and Learning services to Adult Social Care, plus estimated demand based on demographic growth for Older People, Physical & Sensory Disabilities 25+, Learning Disabilities & Autism 25+ and Mental Health. Additional demand above general demographic growth has been included in 2022/23 for Mental Health services as it is assumed there	5.7	7.0	6.1	5.5	5.2	29.6
Community equipment demand	will continue to be higher than normal demand following the pandemic. Adult Social Care's share of the modelled cost of increased provision of Community Equipment over the life of the MTFS. No pressure is showing in 2022/23 as growth in service provision next year is expected to be mitigated by cost efficiencies secured through the successful tendering for the new Community Equipment Store contract due to go live in April 2022.	0.0	0.1	0.1	0.2	0.3	0.7
Discharge to Assess from 2022/23	In 2020/21 and 2021/22 the first 6 weeks of care, reduced to 4 weeks from July 2021, for everyone discharged onto the Discharge to Assess pathway have been funded nationally by NHS England. National funding ends on 31st March 2022 and so health and social partners in Surrey need to decide what will replace the current Discharge to Assess system. A pressure of £1m is currently budgeted as a potential contribution by Adult Social Care to funding the cost of a revised Discharge to Assess model.	1.0	0.0	0.0	0.0	0.0	1.0
Liberty Protection Safeguards	Legislation is due to be introduced which would replace the current Deprivation of Liberty Safeguards regulations. If introduced this would increase the burden on local authorities to conduct assessments. It is currently unclear when the government will formally enact the new regulations and there is a chance they may not do so. The current total MTFS pressure represents 20% of the estimated worst case pressure, pending confirmation of when and whether the new regulations will be implemented.	1.7	1.7	0.0	0.0	0.0	3.5
Assumed increase to ASC Better Care Fund income	This is made up of two elements. Firstly, a £1.5m confirmed increase in Adult Social Care's 2021/22 BCF funding above what was budgeted for 2021/22. Secondly, a £2.4m estimated increase in Adult Social Care's 2022/23 BCF funding based on prior year trends and the growth announced in NHS funding. Confirmation from government of any changes to the Better Care Fund in 2022/23 is still awaited.	(3.9)	0.0	0.0	0.0	0.0	(3.9)

Staffing Pressures including pay Inflation	Estimated pay inflation for Public Service Reform and Public Health staff, including the impact of the increased National Insurance contributions to fund the Health & Social Care Levy	0.2	0.1	0.1	0.1	0.1	0.5
End of grant funding for Family Safeguarding service	Current grant funding for this service ends in December 2022. Alternative funding options are being explored which could reduce this pressure.	0.1	0.3	0.0	0.0	0.0	0.4
Reduction in partner contributions for High Impact Complex Drinkers service	£60k reduction in contributions from partners is currently budgeted based on funding agreed to date. Public Health plans to maintain current provision for this service so the reduction in contributions would be a pressure in 2022/23.	0.1	0.0	0.0	0.0	0.0	0.1

Pressure	Description	2022/23 £m	2023/24 £m	2024/25 £m	2025/26 £m	2026/27 £m	Total £m
Capital Programme financing costs	Additional MRP and Interest required to finance the borrowing contained within the £1.9bn Capital Programme.	8.5	7.2	8.8	10.9	9.4	44.8
Contract Cost Inflation Contingency	The 2022/23 Directorate inflation pressures are based on underlying CPI and RPI inflation of 1.9%. Latest economic forecasts indicate that inflation may peak at 4-5% and so a central contingency is included to meet this risk.	6.0					6.0
Removal of DSG High Needs Block Contingency	Removal of the 2021/22 contingency to cover the risk on cost containment in the DSG High Needs Block. Risks in containing DSG costs in 2022/23 will be met from the overall contingency.	(9.0)					(9.0)
Removal of 2021/22 Covid-19 Contingency	The 2021/22 budget included a £4.9m contingency for Covid-19 costs, the balance of Government emergency funding. Covid-19 risks will be met from the overall contingency in 2022/23.	(4.9)					(4.9)
Total Pressures		0.6	7.2	8.8	10.9	9.4	36.9
