COMMUNITIES, ENVIRONMENT AND HIGHWAYS SELECT COMMITTEE ACTIONS AND RECOMMENDATIONS TRACKER December 2021

The actions and recommendations tracker allows Committee Members to monitor responses, actions and outcomes against their recommendations or requests for further actions. The tracker is updated following each meeting. Once an action has been completed, it will be shaded green to indicate that it will be removed from the tracker at the next meeting.

Meeting	ltem	Recommendations/ Actions	Update/Response	Responsible Officer/ Member
19 March 2021	A New Rail Strategy For Surrey 2021 [Item 5]	A Member requested that paragraph 40 — Environmental Sustainability Implications — of the Cabinet report also reference the range of positive implications for climate change that the schemes and interventions brought forward by the Council in delivering the New Rail Strategy for Surrey would have. This was to further indicate how the New Railway Strategy supported other Council priority areas, such as achieving net carbon.	Noted.	Matt Furniss, Cabinet Memberfor Highways
		The Committee recommends that the Cabinet Member for Highways ensures that the Service identifies any small schemes in the county that could improve residents' access to railway stations quickly and that a commitment to do so is included in the report to Cabinet on 30 March 2021.		Matt Furniss, Cabinet Member for Highways
	Surrey Climate Change Strategy [Item 6]	The Select Committee recommends that the newly appointed Committee reviews the final delivery plan before the Cabinet takes its decision on 29 June 2021.		Select Committee

	Surrey Fire And Rescue Service Implementation Of Making Surrey Safer - Our Plan 2020 - 2023 [Item 7]	 It is recommended that the Select Committee adopt the following points identified by the Working Group as the basis for future scrutiny of the SFRS: Areas of ongoing improvement work that form part of the 'Making Surrey Safer' Plan such as improving workforce diversity and recruitment to on-call positions Analysing comparative data showing the relative performance of SFRS with other suitable peer Fire and Rescue Authorities Analysis of incidents where the first appliance to critical incidents exceeded 10 minutes Analysis of satisfaction levels with the Service's communications Qualitative evidence from frontline staff on changes to the SFRS 	Noted.	Select Committee
16 September 2021	South Western Railway (SWR) consultation	The Select Committee recommends that the following key points are reflected in Surrey County Council's formal response to the South Western Railway (SWR) consultation: i. The Council challenges the rigour of the prediction of 60% prepandemic levels at peak periods in the proposed timetable. Should this prove too low, the prospect of the passenger overcrowding across the network (with health implications with continuing COVID) is alarming for Surrey residents. ii. Therefore, it is imperative that SWR develop a high level of flexibility to adjust the timetable at short notice in such circumstances.	Noted by the Service and incorporated.	Matt Furniss, Cabinet Memberfor Highways

16 September	iii. The cuts to services run counter to the Council's
2021	emerging Local Transport Plan and its Climate Change
	Strategy, both of which actively
	seek to encourage people to use public transport at all
	times of the day.
	iv. At individual level, the extensive peak and off-peak
	reductions affecting stations in Epsom and Ewell and
	Mole Valley will cause considerable inconvenience and
	act as a perverse disincentive to rail travel in favour of
	the car. The Council also asks whether liaison has taken
	place with Southern who also serves this route. The
	County
	Council would like the service to remain at pre
	pandemic level and abandon this change.
	v. The Council welcomes the new rolling stock of ten car
	trains but notes that, despite this, peak hour seats in
	December 2022 will only be 86%
	of May 2019 levels. The Council would be disappointed
	if this results in even more passengers having to stand.
	vi. The Council has strong reservations as this proposal
	runs contrary to Surrey County Council's Climate
	Change targets and sustainable travel policies. In
	addition, there are serious concerns about fewer trains
	on Sundays, which hampers the service's ability to
	support the leisure provision and reduces availability
	during the peak time.

Highway's New Term Maintenance Contract	While supporting the contents of the Report and the	Noted by the Service and Cabinet Member.	Matt Furniss, Cabinet
Maintenance Contract	rigorous process leading to the award of the contract, the Committee recommends:	Cabinet Weinber.	Member for Highways
	: Time by and we burst details of the anacific		
	i. Timely and robust details of the specific		
	improvements Surrey residents will be expecting from		
	this new contract, particularly regarding the reporting		
	of and quality of work on potholes and other highways		
	matters and the overriding importance of 'Right First Time'.		
	ii. Early publication of the chosen contractor's		
	commitment to "improve engagement with residents"		
	and improve communication with them on planned		
	works etc. and collaboration more generally. This		
	should also		
	involve elected Divisional members. The Reference		
	Group of Councillors which has been involved		
	throughout the contracting process can play a		
	constructive role in helping shape these.		
	iii. That a robust process remains in place for the		
	transition phase and initiated for mobilisation period.		
	iv. That unannounced and random spot checks on a		
	regular basis be considered as part of an effective		
	contractual management process;		
	the contract is easy to understand with strong		
	governance and monitoring provisions for dispute		
	resolution mechanism and in an unlikely termination		
	scenario from Surrey County Council's		
	perspective.		
	v. More publicity/communication be considered for		
	social value activities and projects undertaken as part of		
	the new partnership.		

Buses Back Better	Communities, Environment and Highways Select Committee support the County Council's intention to	Recommendations noted by the Cabinet/Cabinet	Matt Furniss, Cabinet Memberfor Highways
	produce a Bus Service Improvement Plan and	Member.	
	the creation of an Enhanced Partnership Scheme, both		
	of which are a National Bus Strategy requirement and		
	commends the extensive range of		
	ambitious initiatives contained in the Report, while also recommending that:		
	i. Serious consideration be given to reducing bus fares		
	(at least on some routes to begin with) as stipulated in the Government's Policy		
	document and in order to make bus travel for Surrey residents a more		
	viable and better value option compared to driving a		
	Car.		
	ii. Family discount and other concessions (U18s, U16s, etc.) bus fares be considered as part of the Bus Service		
	Improvement Plan (BSIP).		
	iii. Any app for passengers includes information on the		
	location of the expected service and the next available		
	bus on the map.		
	iv. The scope, terms of reference etc. for the		
	Partnership Governance Board and the Stakeholder		
	Reference Group are rigorously defined and delineated to help ensure the credibility and effectiveness of the		
	Enhanced Partnership.		
	v. Actively pursue the process, wherever possible, to		
	make all Surrey buses to run on non-fossil fuel.		
	vi. Better communication, awareness and publicity		
	campaign as part of the wider Greener Future piece.		

Safety Cameras in	The Select Committee supports the proposed revisions	Noted.	Matt Furniss, Cabinet
Surrey	and specifically endorses the creation of the		Member for Highways
	"community concern" sites that may become eligible		
	for cameras but cautions that:		
	i. Any unrealistic expectations among residents are not		
	raised about new average speed cameras.		
	ii. In exploring alternative options before the use of		
	cameras in "community concern" areas, these options		
	themselves do not become a reason (costs etc.)		
	resulting in no decision is ever reached.		
	iii. Members should be able to request, wherever		
	appropriate, spot cameras for a community concern site		
	using their respective divisional highways allocation and		
	other sources without unnecessary constraints.		
	iv. A roadmap of the process and prioritisation of		
	requests – existing and new – be put in place and		
	communicated accordingly to all relevant stakeholders.
