Test and Certification on completion of work.

The above quote is based on connecting to existing circuits and assuming the existing installation is fault free and compliant to the current edition of BS7671 of the wiring regulations. This is to include final circuits, sub mains to out buildings, consumer units and all earthing.

Any additional work to the above will incur an additional cost to be discussed with the customer before commencing.

All switch and socket frontals supplied in white plastic

## ITEM 7
