Section 151 Officer Commentary:

9. Significant progress has been made in recent years to improve the Council's financial resilience and the financial management capabilities across the organisation. Whilst this has built a stronger financial base from which to deliver our services, the increased cost of living, global financial uncertainty,

high inflation and government policy changes mean we continue to face challenges to our financial position. This requires an increased focus on financial management to protect service delivery, a continuation of the need to be forward looking in the medium term, as well as the delivery of the efficiencies to achieve a balanced budget position each year.

10. In addition to these immediate challenges, the medium-term financial outlook beyond 2023/24 remains uncertain. With no clarity on central government funding in the medium term, our working assumption is that financial resources will continue to be constrained, as they have been for the majority of the past decade. This places an onus on the Council to continue to consider issues of financial sustainability as a priority, in order to ensure the stable provision of services in the medium term.
11. As such, the Section 151 Officer notes that there are no direct financial implications arising from this report. The financial performance of the companies is detailed in the body of the report.

12. There are no direct legal implications arising from this report. The legal basis for company ownership and oversight is explained in the body of the report.
