

THRIVE Framework for systems Change (Wolpert et al, 2019)

Children's and Young Peoples Emotional Wellbeing and Mental Health.

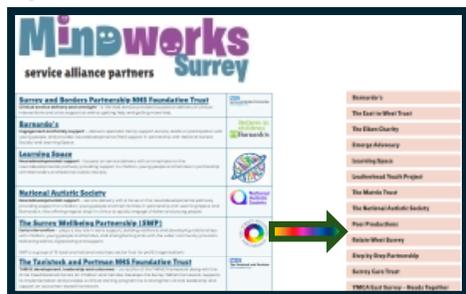

Statement:

Mindworks Surrey brings together strong clinical leadership, statutory NHS expertise and local and national third sector providers to create a partnership across the wider system to transform children's Emotional Wellbeing and Mental Health (EWMH) provision. Mindworks Surrey mirrors recommendations by the NHS Long Term Plan and reflects leading-edge practice.

Goals:

- To embed the THRIVE Framework for systems change (Wolpert et al 2019) as the Surrey delivery vehicle.
- To become a multiagency framework, across health, education, social care and community settings.
- To meet need which is placed based and as early as possible.
- To be able to demonstrate outcomes through the THRIVE principles and to have a learning quality improvement culture at the heart of what we do.

Mindworks Surrey and partners:

Wider Multiagency

Local Authority

Education

Primary Care

Delivery vehicle:

Description of the THRIVE groups

Input offered

The five needs-based groups are distinct in terms of the:

- needs and/or choices of the individuals
- skill mix of professionals required to meet these needs
- resources required to meet the needs and/or choices of people in that group

Future developments:

There is the need to actively work towards full implementation of the THRIVE Framework at a whole systems level, with the following key priorities:

- All staff supporting CYPF are trained in THRIVE like ways of working.
- All outcomes are coherent and embedded together through the THRIVE principles.
- To monitor system wide change and transformation through an agreed outcomes Framework.
- A plan of activities from learning within the system in which new ways of working operationalised.
